

SPECIAL NOTICE REGARDING CORONAVIRUS DISEASE 2019 (COVID-19) AND PARTICIPATION IN PUBLIC MEETINGS

On March 4, 2020, Governor Newsom declared a State of Emergency resulting from the threat of COVID-19. Governor Newsom issued Executive Order N-25-20 (3-12-20) and Executive Order N-29-20 (3-17-20) which temporarily suspend portions of the Brown Act relative to conducting of public meetings. All Board and Committee meetings of the Santa Ana Watershed Project Authority held pursuant to the Brown Act will be conducted virtually, including meetings of the:

- SAWPA Commission
- PA 22, PA 23, and PA 24 Committees
- OWOW Steering Committee

REGULAR MEETING OF THE COMMISSION TUESDAY, APRIL 20, 2021 – 9:30 A.M.

PUBLIC PARTICIPATION

Public participation is welcome and encouraged. You may participate in Public Comments during the meeting of the SAWPA Commission by telephone^{*} and virtually through the Zoom app as follows:

Meeting Access Via Computer (Zoom):	Meeting Access Via Telephone*:		
• <u>https://sawpa.zoom.us/j/99120456654</u>	 1 (669) 900-6833 		
• Meeting ID: 991 2045 6654	• Meeting ID: 991 2045 6654		

If you are unable to participate by telephone^{*} or virtually, you may also submit your comments in writing for the Commission's consideration by sending them to <u>publiccomment@sawpa.org</u> with the subject line "Public Comment". Submit your written comments by **5:00 p.m. on Monday, April 19, 2021**. All public comments will be provided to the Chair and may be read into the record or compiled as part of the record.

*IMPORTANT PRIVACY NOTE: <u>Participation in the meeting via the Zoom app is strongly</u> <u>encouraged</u>. Please keep in mind: (1) This is a public meeting; as such, the virtual meeting information is published on the World Wide Web and available to everyone. (2) Should you participate remotely via telephone, your telephone number will be your "identifier" during the meeting and available to all meeting participants. Participation in the meeting via the Zoom app is strongly encouraged; there is no way to protect your privacy if you elect to call in to the meeting. The Zoom app is a free download. Page Intentionally Blank

PURSUANT TO THE PROVISIONS OF EXECUTIVE ORDER N-29-20, THIS MEETING WILL BE CONDUCTED VIRTUALLY. ALL VOTES TAKEN WILL BE CONDUCTED BY ORAL ROLL CALL.

This meeting will be accessible as follows:

Meeting Access Via Computer (Zoom)*:	Meeting Access Via Telephone*:			
• <u>https://sawpa.zoom.us/j/99120456654</u>	 1 (669) 900-6833 			
• Meeting ID: 991 2045 6654	 Meeting ID: 991 2045 6654 			

Participation in the meeting via the Zoom app (a free download) is strongly encouraged

REGULAR COMMISSION MEETING TUESDAY, APRIL 20, 2021 – 9:30 A.M.

AMENDED AGENDA

1. CALL TO ORDER (Jasmin A. Hall, Chair)

2. ROLL CALL

3. PUBLIC COMMENTS

Members of the public may address the Commission on items within the jurisdiction of the Commission; however, no action may be taken on an item not appearing on the agenda unless the action is otherwise authorized by Government Code §54954.2(b).

4. ITEMS TO BE ADDED OR DELETED

5. CONSENT CALENDAR

All matters listed on the Consent Calendar are considered routine and non-controversial and will be acted upon by the Commission by one motion as listed below.

Α.	APPROVAL OF MEETING MINUTES: APRIL 6, 2021	9
	Recommendation: Approve as posted.	

6. NEW BUSINESS

- FYE 2022 AND 2023 BUDGET (CM#2021.29) 15
 Presenter: Karen Williams
 Recommendation: Review and discuss the draft FYE 2022 and 2023 Budget and consider adoption.

	C.	INTEGRATED REGIONAL WATER MANAGEMENT (IRWM) SUPPORT IN FUTURE 2022 RESOURCE BONDS (CM#2021.31) Presenter: Mark Norton Recommendation: Authorize staff to sign an IRWM 2022 Resources Bond Support Letter with other interested utilities across the state for the purpose of sending to pertinent legislators to indicate funding support for IRWM in all future 2022 resource bonds.	139
7.		DRMATIONAL REPORTS mmendation: Receive for information.	
	Α.	CASH TRANSACTIONS REPORT – FEBRUARY 2021 Presenter: Karen Williams	. 143
	В.	INTER-FUND BORROWING – FEBRUARY 2021 (CM#2021.26) Presenter: Karen Williams	. 149
	C.	PERFORMANCE INDICATORS/FINANCIAL REPORTING – FEBRUARY 2021 (CM#2021.27) Presenter: Karen Williams	155
	D.	PROJECT AGREEMENT 25 – OWOW FUND – FINANCIAL REPORT, JANUARY 2021 Presenter: Karen Williams	177
	Е.	PROJECT AGREEMENT 26 – ROUNDTABLE FUND – FINANCIAL REPORT, JANUARY 2021 Presenter: Karen Williams	181
	F.	BUDGET VS ACTUAL VARIANCE REPORT – FYE 2021 SECOND QUARTER – DECEMBER 31, 2020 (CM#2021.28) Presenter: Karen Williams	185
	G.	FINANCIAL REPORT FOR THE SECOND QUARTER ENDING DECEMBER 31, 2020. Inland Empire Brine Line SAWPA Presenter: Karen Williams	193
	Н.	SECOND QUARTER FYE 2021 EXPENSE REPORT • Staff Presenter: Karen Williams	. 213
	I.	OWOW QUARTERLY STATUS REPORT: JANUARY 1, 2021 – MARCH 31, 2021 Presenter: Mark Norton	215
	J.	ROUNDTABLES QUARTERLY STATUS REPORT: JANUARY 31, 2021 – MARCH 31, 2021 Presenter: Mark Norton	219

K.	GENERAL MANAGER REPORT	23	1
----	-------------------------------	----	---

- April 2021 General Manager's Report
- Santa Ana River Watershed Water Efficiency Budget Assistance
- Executive Financial Information Report (January 2021)
- 100-Day Plan Update

Presenter: Jeff Mosher

L. <u>STATE LEGISLATIVE REPORT</u> 239 Presenter: Jeff Mosher

M. CHAIR'S COMMENTS/REPORT

N. COMMISSIONERS' COMMENTS

O. COMMISSIONERS' REQUEST FOR FUTURE AGENDA ITEMS

8. CLOSED SESSION

There were no Closed Session items anticipated at the time of the posting of this agenda.

9. ADJOURNMENT

PLEASE NOTE:

Americans with Disabilities Act: If you require any special disability related accommodations to participate in this meeting, call (951) 354-4220 or email svilla@sawpa.org. 48-hour notification prior to the meeting will enable staff to make reasonable arrangements to ensure accessibility for this meeting. Requests should specify the nature of the disability and the type of accommodation requested.

Materials related to an item on this agenda submitted to the Commission after distribution of the agenda packet are available for public inspection during normal business hours at the SAWPA office, 11615 Sterling Avenue, Riverside, and available at <u>www.sawpa.org</u>, subject to staff's ability to post documents prior to the meeting.

Declaration of Posting

I, Sara Villa, Acting Clerk of the Board of the Santa Ana Watershed Project Authority declare that on April 15, 2021, a copy of this agenda has been uploaded to the SAWPA website at <u>www.sawpa.org</u> and posted at SAWPA's office at 11615 Sterling Avenue, Riverside, California.

The Regular Meeting of the Santa Ana Watershed Project Authority Commission was called to order at 9:31 a.m. by Chair Hall on behalf of the Santa Ana Watershed Project Authority, 11615 Sterling Avenue, Riverside, California.

1. CALL TO ORDER

Pursuant to the provisions of Executive Order N-29-20, this meeting was conducted virtually, and all votes were taken by oral roll call.

2. ROLL CALL

An oral roll call was duly noted and recorded by the Clerk of the Board.

3. PUBLIC COMMENTS

There were no public comments; there were no public comments received via email.

4. ITEMS TO BE ADDED OR DELETED

There were no added or deleted items.

5. CONSENT CALENDAR

A. <u>APPROVAL OF MEETING MINUTES: MARCH 16, 2021</u> Recommendation: Approve as posted.

B. <u>TREASURER'S REPORT – FEBRUARY 2021</u> Recommendation: Approve as posted.

MOVED, approve the Consent Calendar.

6. NEW BUSINESS

A. FYE 2022 AND 2023 GENERAL FUND DRAFT BUDGET (CM#2021.22)

Karen Williams provided the PowerPoint presentation FYE 2022 and 2023 General Fund Draft Budget on pages 17–54 of the agenda packet. Ms. Williams advised these draft budgets were reviewed by the member agency financial staff and no comments or suggested changes were received. Commissioner Hayes referred to the General Fund Costs slide (page 27 on the agenda packet) and asked why FYE 2023 Education and Training, Operating Costs and Meeting and Travel have reduced from FYE 2021. Jeff Mosher noted that the details and assumptions for each of these line items were reviewed by Karen Williams, Rich Haller, and himself and projections were made for education, training, and conferences with input from each of the department heads. Commissioner Hayes asked if there are reserved funding in case additional education and training come up; Karen Williams noted that there is a contingency funding in each of the line items to allow for additional needs and there is an overall contingency fund that is budgeted under Other Administrative Expenses. Chair Hall referred to the Benefit Assumptions Used slide (page 38 on the agenda packet) and asked about the increase from FYE 2022 to FYE 2023 on the Unfunded Liability Payment. Karen Williams noted it is an estimate based on the PERS Actuarial Valuation and it could change based on the amortization schedule. SAWPA is currently on a 30-year amortization schedule and we can select a shorter schedule (i.e., 20 years or 15 years), which would result in higher payments over a shorter period-of-time. Commissioner Dennstedt questioned about SAWPA's percent unfunded pension liability with CalPERS. SAWPA's last actuarial valuation showed us funded at 77.7%. Commissioner Hayes referred to the Member Contributions slide (page 44 on the agenda packet) and asked why the numbers are so variable. Jeff Mosher noted the numbers reflect the budgeting based on the level of projects funded by the member agencies. A comprehensive budget presentation will be provided to the Commission at the April 20 meeting, with possible budget approval.

This item was for informational and discussion purposes; no action was taken on Agenda Item No. 6.A.

B. SAWPA PROPERTIES (CM#2021.23)

Carlos Quintero provided the PowerPoint presentation about the *SAWPA Properties* on pages 57–70 of the agenda packet. There are five (5) parcels owned within the SAWPA service area: 1) County Line Parcel, 2) Jurupa Property, 3) SAWPA Building, 4) Edison Easement Property, and 5) Colton Power Plant Property. Carlos Quintero provided a brief description of location and use for each property. Chair Hall referred to the Edison Easement Property slide

(page 69 on the agenda packet) and asked if it is an area where SAWPA shares an easement with Edison, who is responsible for the cleaning and vegetation maintenance. Carlos Quintero noted that SAWPA clears out the vegetation; he has reached out to Edison, and Edison states they do not own the property and therefore it is not their responsibility to maintain it. Commissioner Gardner suggested SAWPA notify Edison that SAWPA no longer intends to maintain the vegetation and Edison can possibly take over the property. Carlos Quintero noted he will contact Edison Real Estate. Chair Hall guestioned if there have been any inquiries about any of the SAWPA properties. Carlos Quintero noted that SAWPA was looking into the option of a 10-year lease of the Jurupa Property with a local urban farming NGO. It is 1.13 acres, and it would be used for farming training programs and possibly subdivide the parcels into three (3) smaller parcels with an agreement in place to make sure maintenance is included. Chair Hall suggested following up with the community program to see if there is still interest in leasing the property to help benefit the community as well as SAWPA. Commissioner Dennstedt questioned what the requirements are for declaring surplus property, what is the legal aspect, and if we must go through government entities. Commissioner Slawson noted that EMWD leases out several lands and not a lot of money is received, though the property is maintained and is beneficial. Andrew Turner stated that the surplus property procedures only apply where there is going to be a sale not a lease. He requested to meet with Jeff Mosher and Carlos Quintero to further discuss the long-term goals for the Jurupa Property.

This item was for informational and discussion purposes; no action was taken on Agenda Item No. 6.B.

C. <u>SANTA ANA RIVER WATERSHED WEATHER MODIFICATION FOR WATER SUPPLY</u> <u>ANALYSIS AND GRANT APPLICATION (CM#2021.24)</u>

Mark Norton provided the PowerPoint presentation on the *Santa Ana Watershed Weather Modification Feasibility Study* on pages 74 – 97 of the agenda packet. Mark Norton advised that the Santa Ana Watershed Weather Modification Feasibility Study report was brought forward to SAWPA Commission on December 1, 2020. Mark Norton highlighted the value to SAWPA member agencies and noted the project's eligibility for Proposition 1 – Round 2 funding. The grant application would be for \$300k-\$600k in grant funds, less than 3% of available competitive Round 2 grant funding from Santa Ana Funding area allocation. The next steps are: 1) selection of specific ground seeding location, 2) CEQA Compliance – Mitigated Negative Declaration (estimated to take 6-12 months).

Commissioner Hayes questioned if there is a control that would demonstrate the results. That is, how can we demonstrate that the cloud seeding was responsible for any increase? Mark Norton noted yes, it has been implemented in many watersheds up and down the state, and San Luis Obispo just kicked off their program about a year ago. There was a Wyoming study over 10 years that had control and a very scientific analysis to really prove that it works. Commissioner Hayes questioned what humidity level is required. Mark Norton noted he would have to refer the question to the operator based on the types of clouds and parameters. Commissioner Whitaker suggested the three-year pilot study be conducted independently; the operator doing the cloud seeding should be different from the one reviewing the results after seeding. He thanked Mark Norton for his presentation at WACO on April 2 and stated that it is bringing many more supporters in other areas of the regions where they have had positive results from cloud seeding. We are such a low precipitation zone that in those short periods of the year, where we have clouds, and we have some precipitation potential that is where we need to reach and obtain the highest benefits. Commission Whitaker made a motion to approve staff's recommendation.

Commissioner Dennstedt raised concerns on the actual nexus of benefits to the Western customers and questioned if Metropolitan Water District (MWD) is contributing any money based on their support of the approach. Mark Norton noted that MWD stated that the three (3) year pilot scale project verification is exactly what they need to take to their Board to potentially fund in the future. Commissioner Dennstedt noted that if cloud seeding produces a gully washer and hits one of the burn scars, we could potentially face potential liability for any damages that may occur. She added that she is supportive of pursuing a grant if there are no member agency contributions expected at this time. Commissioner Rowe stated that MWD could be convinced with the support of our member agencies within SAWPA to help fund the program. Santa Barbara has been doing cloud seeding for about 50 years and have used control stations to identify the benefit of 15%, and San Gabriel Valley has been doing it for 25 years; and is very confident that the program works. He thanked Mark Norton for all his efforts in leading the program and present it at various locations, and he offered a recording available that was presented at WACO where it explains the extensive research that has been done and definitive proof that cloud seeding works. Commissioner Slawson noted that the technology is there and even if there is a minimal increase to our rainfall then it is going to be successful, and he questioned if there was any coordination with flood control agencies. Mark Norton noted that there was a Technical Advisory Committee and Jason Uhley of Riverside County Flood Control District was a regular participant and had provided suggestions on certain location that might be a problem for this type of program, particularly in the Homeland/Romoland due to not having the stormwater infrastructure.

Commissioner Hayes stated that she had heard of concerns and will support it if there is a control portion to the project and if it is not funded by the member agencies. Mark Norton noted that the grant requires a 50% local match. Commissioner Dennstedt questioned what is being asked in terms of member agency funding and where are we seeking additional funding partners. Mark Norton noted that SAWPA staff has not formally acted without Commission approval to confirm whether we will proceed with this program, once approved, the outreach will begin.

Commissioner Dennstedt made a substitute motion to fully support a grant application and recommends staff to seek other partners; and try to solicit support financially from other partners. Commissioner Hayes second the substitute motion. Chair Hall stated that Commissioner Whitaker's motion is in place but no second, though we must go through everyone's guestions. Paul Jones noted that MWD has broadly supported this program and have funding available for local resources programs, but that local resources funding is based upon the cost for the local resources projects being more expensive than the net rate. The cost for the water that is projected to be provided through this program is substantially less than the imported water rate, and the likelihood of getting funding is going to be very low. Chair Hall noted that the cost to invest for this study is so small as a fraction of the cost of MWD water and she has participated in the seeding through several different organizations and knows the risks and benefits; and is very supportive because we need more rain and more changes to help with the desert areas. Commissioner Dennstedt re-instated her substitute motion (1) Authorize proceeding with the ground seeding site selection analysis and CEQA Development in FY 21-22; (2) Authorize staff to prepare a watershed wide SAWPA project application for Prop 1 Round 2 seeking 50% grant funding for a three-year pilot scale watershed weather modification program; and (3) Direct staff to perform outreach to seek additional funding partners. Wayne Miller questioned if there is a letter of commitment in place to submit with the grant proposal if there is a 50% match. Mark Norton noted that he would come back to the SAWPA Commission and let them know what was found from local agencies who are willing to contribute and ask for funding match and then submit the proposed project

for consideration. Commissioner Whitaker and T. Milford Harrison both expressed their support on staff's recommendations.

MOVED, (1) Authorize proceeding with the ground seeding site selection analysis and CEQA Development in FY 21-22; (2) Authorize staff to prepare a watershed wide SAWPA project application for Prop 1 Round 2 seeking 50% grant funding for a three-year pilot scale watershed weather modification program; and (3) Direct staff to perform outreach to seek additional funding partners.

Result:	Adopted by Roll Call Vote (Unanimously)
Motion/Second:	Dennstedt/Hayes
Ayes:	Dennstedt, Hall, Hayes, Slawson, Whitaker
Nays:	None
Abstentions:	None
Absent:	None

D. OPPOSE POSITION FOR AB 377 (RIVAS) (CM#2021.25)

Jeff Mosher referenced the letter, contained in the agenda packet on pages 100 – 103, Opposing Position for AB 377 (Rivas) legislation which eliminates flexibility for the Regional Board on discharge requirements in terms of alternative compliance programs and schedules. Jeff Mosher noted that he worked with SAWPA's consultant, West Coast Advisors, on drafting the letter and it was distributed to SAWPA's member agencies for review, approval, and signature.

MOVED, Adopt an OPPOSE position on AB 377 (Rivas) and authorize staff to send the attached letter, with minor modifications, opposing the legislation.

Result:	Adopted by Roll Call Vote (Unanimously)
Motion/Second:	Hayes/Slawson
Ayes:	Dennstedt, Hall, Hayes, Slawson, Whitaker
Nays:	None
Abstentions:	None
Absent:	None

7. INFORMATIONAL REPORTS-

The following oral/written reports/updates were received and filed.

A. CHAIR'S COMMENTS/REPORT

There were no comments/reports from the Chair.

B. COMMISSIONERS' COMMENTS

There were no comments from the Commissioners.

C. COMMISSIONERS' REQUEST FOR FUTURE AGENDA ITEMS

Commissioner Dennstedt requested that SAWPA's percent for the unfunded pension liability with CalPERS be brought back as a future Agenda item.

8. CLOSED SESSION

There was no closed session.

9. ADJOURNMENT

There being no further business for review, Chair Hall adjourned the meeting at 11:27 a.m.

Approved at a Regular Meeting of the Santa Ana Watershed Project Authority Commission on Tuesday, April 20, 2021.

Jasmin A. Hall, Chair

Attest:

Sara Villa, Acting Clerk of the Board

COMMISSION MEMORANDUM NO. 2021.29

DATE:	April 20, 2021
TO:	SAWPA Commission
SUBJECT:	FYE 2022 and 2023 Budget
PREPARED BY:	Karen Williams, DGM/CFO

RECOMMENDATION

It is recommended that the Commission review and discuss the draft FYE 2022 and 2023 Budget and consider adoption.

DISCUSSION

On January 21, 2021, staff presented the FYE 2022 and 2023 Goals and Objectives to the Commission for their review. On March 11, 2021, the first draft FYE 2022 and 2023 Budget was presented to member agencies' financial staff at the Budget Workshop. There were no comments or suggested changes from the member agencies' financial staffs. As per the Budget Schedule, the Budget was presented to the Commission in three meetings. The OWOW and Roundtable Budgets were presented on March 16, 2021, the General Fund Budget was presented April 6, 2021, and the Brine Line Fund Budget was presented April 6, 2021 to PA24. Today staff will present the combined budget and will incorporate all suggestions made from the Commission in the presentation. The Budget will be brought back on May 4, 2021 for final approval.

As in the past, the FYE 2022 and 2023 is a two-year budget and is being prepared in accordance with the Government Finance Officers Association's (GFOA) recommended guidelines and practices. SAWPA has received the GFOA Distinguished Budget Presentation Award for the last six bi-annual budgets. Staff will submit the FYE 2022 and 2023 Budget for this award program after final adoption.

The following documents are attached for your review and will be discussed in detail at the Budget Workshop (Attachment No. 2):

- Combined Summary A summary of the source and use of budgeted funds for FYE 2022 and 2023
- FYE 2022 Budget by Fund
- FYE 2023 Budget by Fund
- Budget Summary by Fund FYE 2017 through FYE 2023
- Detailed Schedule of Sources and Uses of Funds FYE 2022 and 2023
- Member Agency Contribution Schedule
- Summary of Labor Multipliers (Indirect Costs and Benefit Allocation Rates)
 - General Fund Costs FYE 2022 and 2023
 - Benefit Summary FYE 2022 and 2023

RESOURCE IMPACTS

Member Agency Contributions will be \$311,369 per Member Agency for FYE 2022 and will be \$313,087 per Member Agency for FYE 2023.

COMMISSION MEMORANDUM NO. 2021.30

DATE:	April 20, 2021
то:	SAWPA Commission
SUBJECT:	Santa Ana River Mitigation Bank Overview
PREPARED BY:	Ian Achimore, Senior Watershed Manager (This item is subject to the provisions of Project Agreement 26)

RECOMMENDATION

Receive and file.

DISCUSSION

For the past 20 years, staff has worked with our Arundo donax removal partner Riverside County Parks and Open-Space District (Riverside County Parks) on continued eradication and maintenance to prevent regrowth of the invasive weed in the Santa Ana River Watershed. This partnership is funded through a revenue generating framework that both agencies have partnered on since 2002. In 2002 an agreement was executed between the two agencies that allows SAWPA to receive revenue generated by the Santa Ana River Mitigation Bank, a bank that is owned and operated by Riverside County Parks. Regulatory oversight of the bank is performed by the U.S. Army Corps of Engineers (USACE).

Currently the Santa Ana River Mitigation Bank satisfies the requirements for just Clean Water Act Section 404 impacts as it was established in 1996 through an agreement between Riverside County Parks and USACE¹. Riverside County Parks sells credits, once they are certified by USACE, to project proponents (i.e. permittees) and performs habitat enhancement in the Mitigation Bank units in lieu of the permittees performing habitat enhancement themselves. Through the 2002 agreement between SAWPA and Riverside County Parks, SAWPA purchased 100 units (equivalent to 100 acres) in the Mitigation Bank. This was done not to mitigate SAWPA projects for Section 404 impacts, but to invest in the bank so revenue from future sales could be used by SAWPA for invasive weed removal and related habitat projects across the Santa Ana River Watershed. Due to sales over time by Riverside County Park to permittees for their mitigation needs, 52.236 of SAWPA's units have been sold. The remaining units to be sold are 47.764, which represents a potential revenue of \$2,125,020 (or \$44,490 per unit) to SAWPA.

No credits have been sold to permittees from the Mitigation Bank since 2015. Based on discussions with potential permittees and various regulatory agencies, the likely explanation is that permittees want to receive simultaneous credit for the federal Clean Water Act Section 404 impacts and similar State mitigation requirements per California Fish and Game Code Section 1600. Since it saves time and money during the permit application process, permittees appreciate having a "one stop shop" mitigation bank for their federal and state permits.

¹ The U.S. Fish and Wildlife Service (USFWS) is also a party to the agreement. The agreement was amended in 2008.

In order to explore options to improve the mitigation banking process, SAWPA is working with Riverside County Parks and the California Fish and Game Code Section 1600 regulatory agency – the California Department of Fish and Wildlife (CDFW) – on possible approaches to sell more credits. CDFW has recommended, and Riverside County Parks and SAWPA are interested in, what CDFW calls a "permittee responsible" approach. SAWPA, Riverside County Parks, and CDFW staff want to maintain the ability for the Mitigation Bank to continue to be used for Section 404 impacts, and CDFW does not think this "permittee responsible" approach will affect that.

Through a "permittee responsible" approach, the Mitigation Bank would not be formally certified by CDFW under their mitigation banking policy because that approach would be too costly for Riverside County Parks and SAWPA. Instead, the existing structure (i.e. the acres set aside by Riverside County Parks for enhancement) and Riverside County Parks' experience in selling credits and maintaining riparian habitat would be leveraged to sell acres within the existing Mitigation Bank for Section 1600 impacts (as well as Section 404 impacts) to individual permittees.

To utilize this "permittee responsible" approach, the changes that Riverside County Parks would need to make include ensuring that all acres utilized for Section 1600 impacts:

- 1. Acres need to protected by a conservation easement,
- 2. Documentation and field data needed regarding the acres' potential for habitat enhancement,
- 3. Acres need to have a CDFW-approved long-term management plan tied to them,
- 4. Annual reporting standards template for CDFW standards needs to be developed, and
- 5. Final buy-in from CDFW needed.

SAWPA has ongoing discussions with Riverside County Parks and CDFW, and plans to bring back a recommendation to the Commission in the coming months that will outline a path forward to sell the remaining 47.764 credits. One option is to implement the "permittee responsible" approach discussed above. The costs to implement that approach are not known at the time of writing this memorandum, but it will likely 1.5 years to implement with Riverside County Parks taking the lead. The other option is to ask for the funding back for the price that was paid by SAWPA (\$40,000 per credit).

BACKGROUND

SAWPA purchased 100 of the total 221.93 acres in the Santa Ana River Mitigation Bank in 2004 at the price of \$40,000 per acre through the 2002 agreement with Riverside County Parks using funds from SAWPA's Proposition 13 Southern California Integrated Watershed Program Grant Funding Contract with the State Water Resources Control Board (SWRCB). In 2004, the SAWPA Commission adopted, and the SWRCB accepted as within the scope of the Proposition 13 grant, Resolution No. 427. The resolution established a specific policy that SAWPA must follow when it utilizes its revenue generated by the Santa Ana River Mitigation Bank. The resolution, attached to this memorandum, states that the purpose of the revenue is for "the removal of Arundo and other heavy water using invasive plants within the watershed and to prevent Arundo reinfestation in areas where Arundo has already been removed, as well as related habitat and wetland efforts, so long as funds are available."

SAWPA, unlike the permittees, received ownership in 2004 of these acres of potential credits with the anticipation that those credits would be available for sale to permittees, not to mitigate SAWPA projects. Of those 100 acres purchased by SAWPA, 52.236 have been sold to permittees.

CRITICAL SUCCESS FACTORS

- Report and use results of roundtable's work, leverage information and involvement for the benefit of SAWPA, its members, and other stakeholders.
- Annual reviews of workplans and budgets for each task force activity.

RESOURCE IMPACTS

None.

Page Intentionally Blank

Santa Ana River Mitigation Bank Overview

Ian Achimore | Senior Watershed Manager April 20, 2021 | Commission Meeting Item No. 6.B

SAWPA Has An Invasive Species Focused-Roundtable

- Arundo Management & Habitat Restoration Fund (Fund) in SAWPA Budget,
 - Currently has approximately \$900k in fund.
- Fund in Budget gains revenue from Santa Ana River Mitigation Bank credit sales,
- Per SAWPA Resolution No. 427, use of the Fund (like a task order) needs to be approved by Commission even if below General Manager signing authority.

Fiscal Years Ending 2020 and 2021 Budget

11615 Sterling Avenue • Riverside • California • 92503 www.sawpa.org • (951) 354-4220

What is Arundo donax?

- Invasive Plant (High Rating),
- Noxious Weed,
- Uses 3 times amount of water than native vegetation,
- Highly combustible,
- Survives fire and thrives,
- Causes flooding by altering flow regimes, and
- No known habitat benefit.

Initial Arundo Implementation Efforts -Proposition 13 Grant

- SAWPA first became involved in Arundo Donax removal with the Prop 13 (2000 Water Bond) Grant that funded the Southern California Integrated Watershed Program (SCIWP),
- With SAWPA as the project manager, over 2,500 acres of Arundo Donax removed as part of the SCIWP, and
- As part of SCIWP, SAWPA invested Prop 13 grant funding in the existing Santa Ana River Mitigation Bank.
 - \$40,000 of grant funds used to purchase 100 acres (\$4,000,000 grant funding total).
 - SAWPA purchased acres not to mitigate for specific projects, but to invest and gain eventual revenue from credit sales to permittees.

About the Mitigation Bank

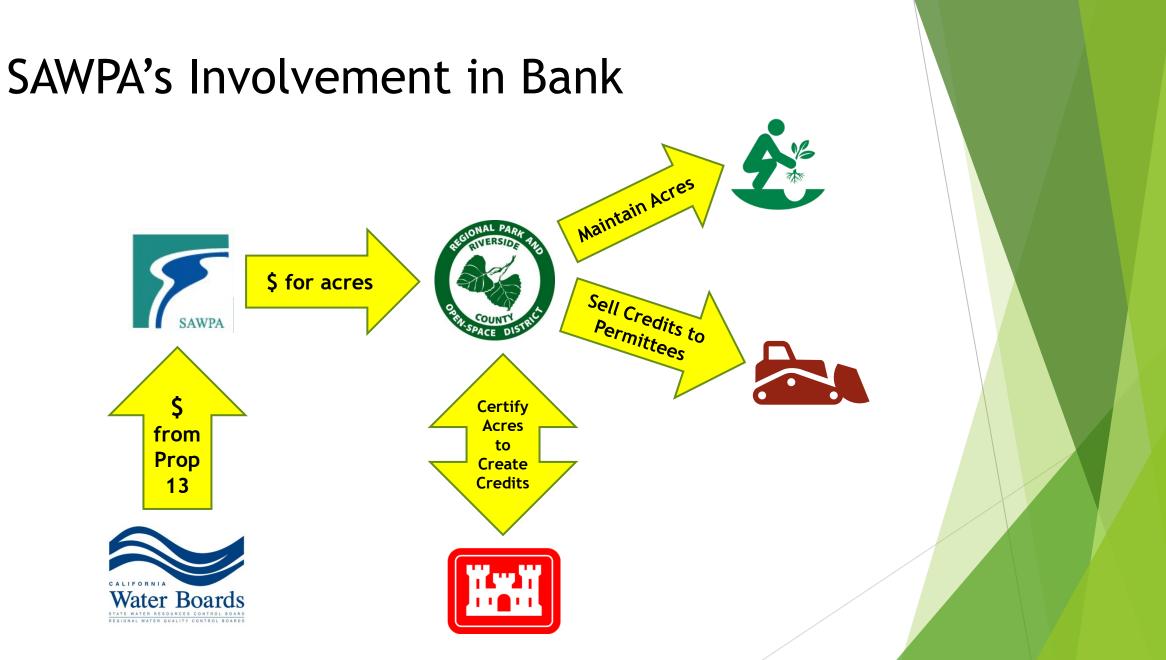

Operated by Riverside County Regional Park and Open-Space District,

Created in 1996 with U.S. Army Corps of Engineers (USACE) through a MOU,

► MOU also certified by the U.S. Fish and Wildlife Service.

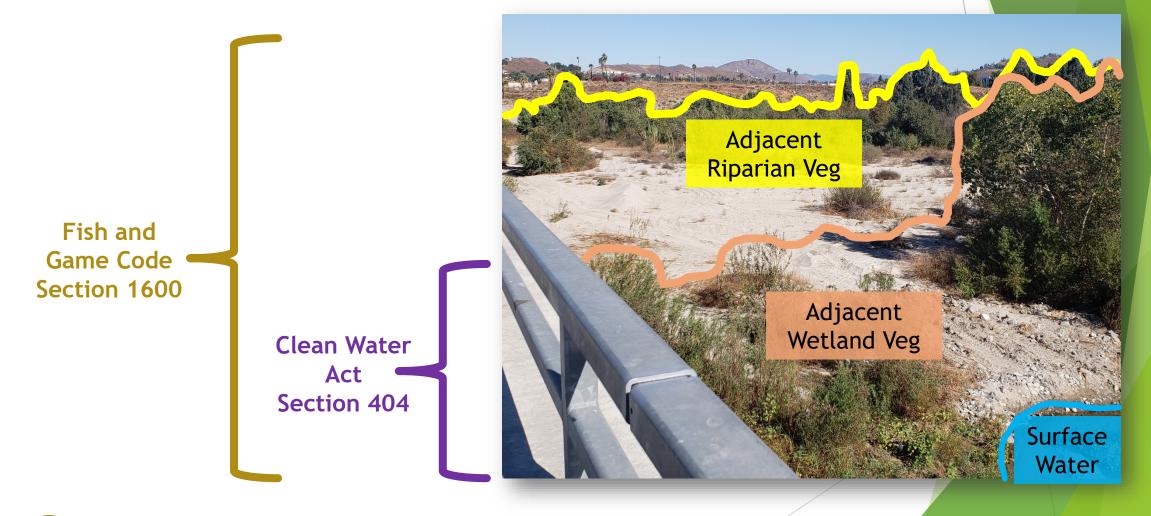

Mitigates for Clean Water Action Section 404 Impacts (a U.S. Army Corps federal requirement).

Bank Revenue Provided to SAWPA

Permittees Purchase Bank Credits for Areas of a Stream They Impact

State Requirement

Feder

Federal Requirement

Bank Only Covers Federal Clean Water Act Section 404 Impacts

- Bank exists due to 1996 agreement with U.S. Army Corps of Engineers, the federal agency regulating Clean Water Act Section 404.
- Last credit sold in 2015.
 - Likely reasons:
 - Many project proponents, like cities improving bridge crossings, impact all portions of a stream, and
 - There are other mitigation bank options in the Santa Ana River Watershed that mitigate for both federal and state stream impacts.
- SAWPA and Riverside County Parks have discussed issue with State regulatory agency - California Department of Fish and Wildlife (CDFW).

Status of Credits in the Bank **Riverside Parks SAWPA** Total 121.930 Credit Total 100.000 221.930 Credits Sold 52.236 146.206 93.970 **Credits Remaining** 47.764 27.960 75.724 Represents potential revenue to SAWPA of \$2,125,020 (or \$44,490 per credit). Each credit sold gains SAWPA \$4,490 (or 11% rate of return).

Possible Approach for Improving Banking Process

- CDFW recommends a "permittee responsible approach,"
 - Bank would not be formally certified by CDFW under their new mitigation banking policy because that approach would be too costly (estimated at >\$2 million).
- Instead, the existing structure (i.e. the acres set aside by Riverside County Parks for enhancement) and Riverside County Parks' experience in selling credits and maintaining riparian habitat would be leveraged to sell credits.

Benefits vs. Downsides

Benefits:

- Rate of return on credits sales could triple (shown in table).
- Benefits member agencies to have an additional mitigation source.

Downsides:

- Permittees would have to explain nuances of projects/impacts for them to get specific credit from Riverside County Parks.
- Each permittee needs buy-off from CDFW on a project-by-project basis.

	SAWPA Purchase Price	Current Rate of Return*	3x Rate of Return*
Price Per Acre	-\$40,000	+\$4,490 (+11%)	+\$133,470 (+234%)
Acres	100	47.764	47.764
Total Value	-\$4,000,000	+\$2,125,022	+\$6,375,067

*In comparison to initial purchase price.

Work to Be Done to Implement "Permittee Responsible" Approach

- Acres need to protected by a conservation easement,
- Documentation and field data needed regarding the acres' potential for habitat enhancement,
- Acres need to have a CDFW-approved long-term management plan tied to them,
- Annual reporting standards template for CDFW standards needs to be developed, and
- Final buy-in from CDFW needed.

Timeline & Costs of Implementing "Permittee Responsible"

- Will probably take 1.5 years to work through steps (shown on previous slides), and
- Riverside County Parks would invest in process, possibly higher a consultant and bring on County finance staff to assist.
- Costs not known at the time of this presentation.

Alternative Approach & Next Steps

Alternative Approach:

Ask for credits back from Riverside County Parks (47.764 credits x \$40,000 = approximately \$1.9 million).

Next Steps:

- Coordinate implementation schedule for starting "permittee responsible" process with Riverside County Parks and CDFW.
- Bring back recommendation to Commission.

Questions

RESOLUTION NO. 427

RESOLUTION OF THE COMMISSION OF THE SANTA ANA WATERSHED PROJECT AUTHORITY DIRECTING THE GENERAL MANAGER TO ESTABLISH A POLICY ON THE DISBURSEMENT OF FUNDS COLLECTED FROM MITIGATION BANK CREDIT SALES

WHEREAS, on March 7, 2000, the electorate of the State of California voted to approve Proposition 13, the Costa-Machado Water Act of 2000 (Act) containing the Southern California Integrated Watershed Program (SCIWP) (California Water Code Sections 79104.20 through 79104.34), providing \$235 million for local assistance grants; and

WHEREAS, the State Legislature has appropriated funds to the State Water Resources Control Board (SWRCB) to be allocated to the Santa Ana Watershed Project Authority (SAWPA) for projects to rehabilitate and improve the Santa Ana River Watershed; and

WHEREAS, on September 20, 2001, the SWRCB authorized the Executive Director or designee to negotiate, execute and amend contracts with SAWPA to provide funding for one project from the SCIWP, titled Arundo Removal Program; and

WHEREAS, on April 23, 2003, SAWPA purchased 100 acres of Mitigation Bank Credit pursuant to an agreement with the Riverside County Park and Open Space District to and as part of the Arundo Removal Program; and

WHEREAS, it is the intent of the SWRCB and SAWPA that the proceeds from the sale by SAWPA of such Mitigation Bank Credits are to be used for the removal of Arundo and other non-native invasive plants in the Santa Ana River Watershed; and Resolution No. 427 Page 2

WHEREAS, by this resolution SAWPA intends to adopt a policy consistent

with the foregoing intent.

NOW, THEREFORE, BE IT RESOLVED by the Commission of the

SANTA ANA WATERSHED PROJECT AUTHORITY as follows:

That the SAWPA Commission hereby establishes a Habitat Restoration Fund Policy attached hereto as Exhibit "A" to ensure that proceeds of sales of Arundo Mitigation Bank credits are used in a manner consistent with those envisioned by the Southern California Integrated Watershed Program and the Integrated Watershed Plan as outlined above and in the attachment.

APPROVED AND ADOPTED THIS 18th day of May, 2004.

Habitat Restoration Fund

- 2

SAWPA Santa Ana Watershed Project Authority

EXHIBIT A

Policy Name:	Habitat Restoration Fund Administration
History:	Effective May 18, 2004
Application:	Disposition of Funds Generated from the Sale of Arundo Mitigation Bank Credits

PURPOSE:

This policy is intended to clarify, explain and provide guidance on the management of funds generated by the sale of Arundo Mitigation Bank credits as part of the Southern California Integrated Watershed Program, Arundo Removal Program.

BACKGROUND:

As part of the SCIWP, SAWPA purchased 100 acres of Arundo Mitigation Bank credits from the Riverside Park and Open Space District (District). The terms of this Agreement are summarized in Amendment No. 1 of the Grant Funding Contract between SAWPA and the District. SAWPA purchased the 100 habitat units for \$4 million and the District will sell those units as broker on behalf of SAWPA for the current price of \$45,398 per habitat unit, less a 2% administrative fee deducted from the total price. As part of the Arundo removal agreement with the SWRCB, the proceeds of the sale of Arundo Mitigation Bank units are to be used for the removal of additional Arundo and other heavy water using invasive plants within the watershed and to prevent Arundo reinfestation in areas where Arundo has already been removed, as well as related habitat and wetland efforts, so long as funds are available.

POLICY:

Upon receipt of funds from the District generated from the sale of SAWPA-owned Mitigation Bank Credits, SAWPA shall deposit such funds into a segregated account for the purpose of funding the removal of Arundo and other heavy water using invasive plants within the watershed and to prevent Arundo reinfestation in areas where Arundo has already been removed, as well as related habitat and wetland efforts, so long as funds are available. This segregated, account will be included in the SAWPA budget. The account will accrue interest.

The funds in that account will not be disbursed until after July 1, 2005 or a date following the close-out of the SCIWP Arundo Program. SAWPA administrative costs related to this account and the plant removal program will be deducted from the account.

Any project related expenditures from the account shall be approved by the SAWPA Commission to ensure consistency with the purpose of the Habitat Restoration Fund and the Integrated Watershed Plan.

Page Intentionally Blank

SAWPA COMMISSION MEMORANDUM NO. 2021.31

DATE:	April 20, 2021
то:	SAWPA Commission
SUBJECT:	Integrated Regional Water Management (IRWM) Support in Future 2022 Resources Bonds
PREPARED BY:	Mark Norton, PE, Water Resources & Planning Manager

RECOMMENDATION

Authorize staff to sign onto an Integrated Regional Water Management (IRWM) 2022 Resources Bond Support Letter with other interested utilities across the state for the purpose of sending to pertinent legislators to indicate funding support for IRWM in all future 2022 resources bonds.

DISCUSSION

In July 2019, the Association of California Water Agencies (ACWA) developed and adopted new policy principles for integrated regional water management (IRWM). ACWA felt that IRWM has proven to be a valuable and important tool for managing water resources, and that the Department of Water Resources (DWR) should renew its emphasis on the IRWM program.

In July 2020, the State released a Water Resilience Portfolio led by the Natural Resources Agency. The Portfolio serves as a pathway for the State to prioritize activities for the next several years related to water supply, flood control, water quality, safe drinking water, disadvantaged communities, habitat management, and other related issues. Further, the Water Resiliency Portfolio encourages the use of regional implementation and multi-benefit solutions as expressed in the foundational seven principles identified in the Executive Order N-10-19 as indicated below:

- Prioritize multi-benefit approaches that meet several needs at once;
- Utilize natural infrastructure such as forests and floodplains;
- Embrace innovation and new technologies;
- Encourage regional approaches among water users sharing watersheds;
- Incorporate successful approaches from other parts of the world;
- Integrate investments, policies, and programs across state government; and
- Strengthen partnerships with local, federal and tribal governments, water agencies and irrigation districts, and other stakeholders.

Considering the State's Water Resilience Portfolio and the growing need to address more extreme droughts and floods, rising temperatures, declining fish populations, and over-reliance on groundwater and other challenges, two new resource bond measures have been introduced by State legislators as follows:

- SB 45 (Portantino Los Angeles) \$5.6 Billion "Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2022"
- AB 1500 (E. Garcia Coachella) \$6.7 Billion "Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, and Workforce Development Bond Act of 2022"

Unfortunately, neither resource bond at this stage reflects funding support for IRWM programs and projects like past water bonds such as Proposition 50, Proposition 84, and Proposition 1. Recognizing the significant benefit of the IRWM approach to produce multi-benefit solutions to water resources challenges facing this region and others across the State, feedback is needed from IRWM committees, practitioners, and stakeholders to ensure that IRWM planning, project and programs continue. Further, in discussions with Nancy Vogel, lead author of the Water Resiliency Portfolio, Ms. Vogel emphasized it is up to the IRWM regions and their supporters to work with legislators now to craft text in the proposed future resources bonds to include the IRWM role and funding support to help implement the Portfolio partnerships.

IRWM funds a diverse set of projects that meet the goals of regional partnership and climate resilience. In the past, IRWM has funded conservation, recycled water, stormwater, groundwater recharge, habitat restoration, salt removal and many other projects on a regional scale -- exactly the types of projects that can advance and improve regional and inter-regional water resiliency and sustainability.

Investment in IRWM is leveraged by matching local funds. Over the past several years, the state has invested approximately \$1.45 billion in bond funds in IRWM projects, and the regions throughout the state have matched that amount with an additional \$5.6 billion spent on those collaborative projects. The matching funds required under previous bond allocations leverages state investment and increases overall funding for regional and inter-regional water resilience.

Staff with the assistance of West Coast Advisors Inc. has prepared a support letter indicating the value and benefit of IRWM and why it should be included in future resource bonds. The letter emphasizes that we need to address the State Water Resilience Portfolio. Based on feedback from the SAWPA Member Agency General Managers, they too were supportive of IRWM support as long as funding support for other individual water sectors was also defined such as water quality improvement, recycling, desalting, stormwater management., etc. SAWPA recommends that funding for statewide IRWM and other water needs planning, programs and projects should be included in these bonds.

Staff recommends authorization and signature of the attached letter in coordination with other utilities in the state to send to legislators to serve as a unified voice in support of IRWM and general water funding in any future resources bond benefiting the Santa Ana Funding Area and the SAWPA IRWM region.

, 2021

The Honorable Eduardo Garcia California State Assembly State Capitol, Room 4140 Sacramento, CA 95814

RE: Inclusion of IRWM in AB 1500 (E. Garcia) - 2022 Resources/Resiliency Bond

Dear Assemblymember Garcia:

The undersigned representatives of Integrated Regional Water Management (IRWM) regions and additional partnering IRWM throughout the state write to **strongly support the inclusion of \$1 billion for IRWM and other programs and projects that fund important multi-benefit regional and inter-regional projects** within your AB 1500. We believe that IRWM is an important component to the protection of public health through funding drinking water and wastewater projects, while creating jobs in California when we desperately need them. The IRWM process puts us in a great position to get projects under way in a meaningful fashion with a prioritized list of projects that have been vetted at the local level through IRWM plans. IRWM also serves as conduit to implement drinking water and wastewater projects in disadvantaged communities that have gone through the planning phase in the Proposition 1 Disadvantaged Community Involvement Program.

As you know, IRWM is a highly effective and efficient collaborative effort to plan and implement water management solutions on a regional scale. The IRWM approach delivers a higher value for investments by considering all interested entities, working across jurisdictional boundaries, encouraging diverse partnerships through collaboration, and prioritizing multiple benefit projects. Created as a result of the IRWM Planning Act of 2002, IRWM regions represent 99% of the state's population.

In his Water Resilience Portfolio released last year, Governor Gavin Newsom identified IRWM as one of the best programs to implement major portions of the Portfolio. IRWM funds a diverse set of projects that meet the goals of regional partnership and climate resilience. In the past, IRWM has funded conservation, recycled water, stormwater, groundwater recharge, habitat restoration, salt removal and many other projects on a regional scale -- exactly the types of projects that can advance and improve regional and inter-regional water resiliency and sustainability.

Investment in IRWM is leveraged by matching local funds. Over the past several years, the state has invested approximately \$1.45 billion in bond funds in IRWM projects, and the regions throughout the state have matched that amount with an additional \$5.6 billion spent on those collaborative projects. The matching funds required under previous bond allocations leverages state investment and increases overall funding for regional and inter-regional water resilience.

We appreciate your leadership on water and climate issues and look forward to answering any questions you may have. We strongly urge including \$1 billion in your AB 1500 for IRWM and other programs and projects that achieve regional and inter-regional water resilience as proposed by the Governor through the Water Resilience Portfolio.

Sincerely,

Santa Ana Watershed Project Authority Cash Transaction Report Month of February 2021

Below is a summary of cash transactions completed during the month in the Authority's checking account with US Bank. Attached are summaries by major revenue and expense classifications.

COMMISSION MEMORANDUM NO. 2021.26

DATE:	April 20, 2021
TO:	SAWPA Commission
SUBJECT:	Inter-Fund Borrowing – February 2021
PREPARED BY:	Karen Williams, DGM/CFO

RECOMMENDATION

It is recommended that the Commission receive and file the informational report on short-term, cash-flow inter-fund borrowing.

DISCUSSION

On December 13, 2005, the Commission approved Resolution No. 452, Inter-Fund and Inter-Project Loan Policy. Staff was directed to bring back an accounting of the loans each month for review when the total exceeded \$250,000 in aggregate.

The following projects, with negative cash flow, are listed below with the amounts borrowed from SAWPA General Fund Reserves in February 2021. The total amount borrowed is over the aggregate \$250,000 amount recommended in Resolution No. 452, Inter-Fund and Inter-Project Loan Policy. The Commission has requested that this item be brought back each month as an informational item when the loan amount is over the \$250,000 aggregate amount.

Fund	Fund Name	01/31/2021 Balance	Loan Receipts	New Charges	02/28/2021 Balance
130	Proposition 84 Admin R1	\$45,134.26	(\$0.00)	\$0.00	\$45,134.26
135	Proposition 84 Admin R2	77,307.30	(0.00)	4,569.74	81,877.04
140	Proposition 84 Admin R3	41,207.76	(4,335.09)	0.00	36,872.67
145	Proposition 84 Admin R4	179,950.79	(34,798.89)	10,460.32	155,612.22
150	Proposition 1 – Admin	37,582.95	(0.00)	2,251.48	39,834.43
398	Proposition 1 – DACI Grant	135,591.17	(336,776.41)	292,570.71	91,385.47
477	LESJWA Administration	14,013.55	(0.00	18,650.74	32,664.29
504	Prop 84 – Round I&II	(127,305.44)	(0.00)	0.00	(127,305.44)
504	Prop 84 - Drought Projects	122,979.41	(0.00)	0.00	122,979.41
	Total Funds Borrowed	\$526,461.75	(\$375,910.39)	\$328,502.99	\$479,054.35
General Fund Reserves Balance			\$2,068,71 479.05		

\$2,068,711.68
479,054.35
\$1,589,657.33

The following table lists each fund that has a negative cash flow, the source of funding for the fund, how often the fund is billed, and the projected rate of payment for the fund.

NEGATIVE CASH-FLOW FUNDS

Fund No.	Source of Funding	Billing Frequency	Projected Payment Time
130,135,140, 145 – Proposition 84 Admin	DWR – Prop 84 Grant	Monthly/Quarterly	Up to 4 months
398 – Proposition 1 – DACI Grant	DWR – Prop 1 Grant	Monthly	Up to 4 months
477 – LESJWA Admin	Reimbursement from LESJWA	Monthly	2 to 4 weeks
504 - Proposition 84 Drought Projects	DWR – Prop 84 Grant	Monthly	Up to 4 months
504 – Proposition 84 SARCCUP Projects	DWR – Prop 84 Grant	Monthly/Quarterly	Up to 4 months

Fund 130

The outstanding balance of the funds due from DWR is the mandatory 10% retention from each invoice billed. Retention funds will not be released until the Proposition 84 Round I contract is completed. Retention should be released within the next few months.

Fund 135

This fund is for the administration of Proposition 84 Round II grant funds. These funds will be billed quarterly and 10% will be withheld for retention.

Fund 140

This fund is for the administration of Proposition 84 Drought Round grant funds. These funds will be billed monthly and 10% will be withheld for retention.

Fund 145

This fund is for the administration of Proposition 84 Round 2015 grant funds. These funds will be billed quarterly and 10% will be withheld for retention.

Fund 150

This fund is for the administration of Proposition 1 grant funds. Once the contract has been signed by DWR these funds will be billed quarterly and 10% will be withheld for retention.

Fund 398

This fund is for the Proposition 1 DACI grant project. These funds will be billed monthly and 10% will be withheld for retention.

Fund 477

Each month LESJWA is billed the cost for administering the JPA. Once the bill is received, LESJWA submits payment within two weeks.

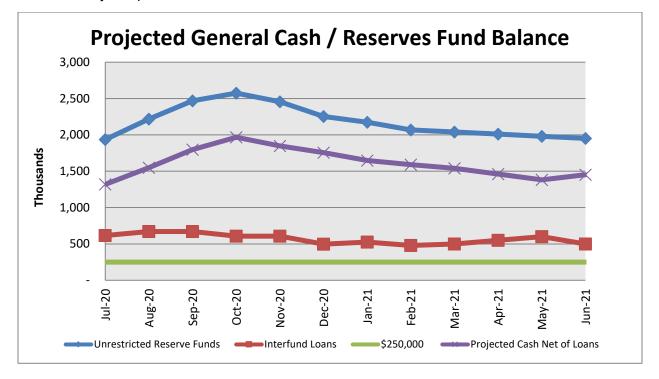

Fund 504

This fund is for the implementation of drought related projects and SARCCUP projects which are administered through PA22 and PA23.

Fund	Fund Name	Total Budget	Costs Through 02/28/2021	Remaining Grant Budget
130	Proposition 84 Admin R1	\$660,004	(\$571,491)	\$88,513
135	Proposition 84 Admin R2	627,405	(599,837)	27,567
140	Proposition 84 Admin R3	887,860	(866,091)	21,769
145	Proposition 84 Admin R4	3,213,384	(892,345)	2,321,039
150	Proposition 1 Admin	TBD	(39,834)	TBD
398	Proposition 1 – DACI Grant	6,300,000	(5,356,531)	943,469
504	Prop 84 - Drought Projects	5,547,816	(3,482,114)	2,065,702
504	Prop 84 – 2015 Round (SARCCUP)	1,543,810	(647,662)	896,148
	Totals	\$18,780,279	(\$12,455,905)	\$6,364,207

The following graph shows the total budget, total project costs to date, and the amount remaining on each grant.

The following graph shows projected inter-fund loan balances, total unrestricted General Fund Reserves available for loans, and projected cash net of loans through June 2021. The projected loan balance is expected to remain over the \$250,000 aggregate limit through June 2021 because of Proposition 1 and 84 grants but can be covered by General Fund Reserves without a major impact on cash flow.

RESOURCE IMPACTS

The funds borrowed from the General Fund Reserves will be paid back with interest when the funding is received. Interfund loans for grants are not charged interest unless the grant contracts specifically states that interest is eligible for reimbursement. There is sufficient cash available to cover proposed borrowings and to pay budgeted expenditures for the General Fund.

1. Resolution No. 452 | Amending the Inter-Fund, Inter-Project and Inter-Agency Loan Policy

RESOLUTION NO. 452

A RESOLUTION OF THE COMMISSION OF THE SANTA ANA WATERSHED PROJECT AUTHORITY AMENDING THE INTER-FUND, INTER-PROJECT AND INTER-AGENCY LOAN POLICY

WHEREAS, the Commission of the Santa Ana Watershed Project Authority (hereafter "SAWPA") previously adopted, by minute action taken on August 3, 1996, an "Inter-Fund/Inter-Project Loan Policy" to regulate loans from one SAWPA Fund or Project to another SAWPA Fund or Project; and

WHEREAS, the Commission desires to amend the "Inter-Fund Fund/Project Loan Policy" by formally adopting such Policy, by way of this Resolution, regulating how and in what manner such inter-fund or inter-project loans are to take place and mandating that all such loans require Commission approval in advance as contemplated by the policy adopted on August 3, 1996.

NOW, THEREFORE, BE IT RESOLVED that the Commission of the Santa Ana Watershed Project Authority hereby amends the following Loan Policy for any loan from one SAWPA Fund or Project to another SAWPA Fund or Project:

- 1. Loans from any SAWPA Fund or Project to another SAWPA Fund, Project or another public agency shall be approved in advance by the SAWPA Commission. The approval shall be in written format and include documentation of the specifics of the transaction. The approval shall include a finding that the loan will not expose the lending SAWPA Fund or Project to significant financial or operational risk.
- 2. Unless otherwise provided for by the Commission, the borrowing Fund, Project or public agency shall be required to repay the loan within a specific period of time and at a rate of interest as determined by the Commission. For the purposes of this policy, SAWPA's calculated quarterly rate of return may be used as the basis for interest payable on the outstanding principal for any loan. The period for repayment of the loan shall be determined by the Commission, but shall be no longer than the life of the lending Fund or Project.
- 3. The borrowing Fund's, Project's or public agency's repayment source shall be identified and included in the approval action by the Commission and the "loan documentation". The "loan documentation" shall include a written agreement, resolution or other document approved by the Commission setting forth all of the foregoing terms and conditions.

Resolution No. 452 Page 2

- 4. Loans to reimbursable SAWPA grant contract projects and related efforts for short-term (i.e., current fiscal year) operating cash flow purposes may be borrowed from the SAWPA General Fund Reserve without prior Commission approval. But all such loans shall be reported to the Commission within 30 days of each such loan. Such loans shall be paid off on a continuous basis. The total funds loaned for all such grant contract projects and related efforts shall not exceed \$250,000.00 in the aggregate for each fiscal year, without prior written approval by the Commission. Payment of interest will be based on the actual interest that would have been earned by the SAWPA General Fund Reserve had those funds not been borrowed. Cash flow and receivables will be reported at least quarterly to forecast needs and demonstrate compliance.
- 5. Prior to June 30th of each year, staff shall provide to the Commission an annual written report of all such Inter-fund, Inter-project or Inter-agency loans, amounts repaid and any outstanding loan balances.

ADOPTED this 13th day of December 2005.

SANTA ANA WATERSHED PROJECT By: Mark Bulot, Chair

CM 5716 InterFundLoan Policy Resolution dlw 12-06-05 rev FINAL

COMMISSION MEMORANDUM NO. 2021.27

DATE:	April 20, 2021
TO:	SAWPA Commission
SUBJECT:	Performance Indicators and Financial Reporting – February 2021
PREPARED BY:	Karen Williams, DGM/CFO

RECOMMENDATION

It is recommended that the Commission receive and file staff's report.

DISCUSSION

The attached reports have been developed to keep the Commission informed as to SAWPA's business and budget performance. These reports are categorized into the following groups: financial reporting, cash and investments, and performance indicators. They are explained in detail below. As new reports are developed, they will be added for the Commission's review.

Financial Reporting

Balance Sheet by Fund Type	Lists total assets, liabilities, and equity by fund type for a given period.
Revenue & Expense by Fund Type	Lists total revenue and expenses by fund type for a given period.
Receivables Management	Shows total outstanding accounts receivable by age.
Open Task Order Schedule	Shows SAWPA's total outstanding obligation for open task orders.
List of SAWPA Funds	Shows each SAWPA Fund with the fund description and fund group.
Debt Service Funding Analysis	Shows total annual income by source used to make debt service payments through debt maturity at FYE 2048.
Debt Service Payment Schedule	Shows total debt service interest and principal payments through debt maturity at FYE 2048.

Cash and Investments

Total Cash and Investments (chart)	Shows the changes in cash and investments balance for the last twelve months.
Cash Balance & Source of Funds	Shows total cash and investments for all SAWPA funds and the types of investments held for each fund.
Cash & Investments (pie chart)	Shows total cash and investments for all SAWPA funds and the percentage of each investment type.
Reserve Account Analysis	Shows changes to each reserve account for the year and projected ending balance for each.

Twelve Month Security Schedule (chart)	Shows the maturity dates for securities held and percentage of securities in each category.
Treasurer's Report	Shows book and market value for both Treasury strips and securities held by the Agency.

Performance Indicators

Average Daily Flow by Month	Shows total flow in the Brine Line System by month compared to total treatment capacity owned. This is an indicator of the available capacity in the line. As we add yearly flows, it will show trends in flow throughout the year.				
Summary of Labor Multipliers	Summarizes the information generated from the following two reports and compares the actual benefit and Indirect Cost Allocation rates to the total budgeted rates.				
General Fund Costs	Lists total Fund No. 100 costs to date and the amount of those costs recovered through the Indirect Cost Allocation and member contributions.				
Benefit Summary	Lists total employee benefit costs actual to budget and projects them through the end of the year. This report compares how the actual benefit rate compares to the budgeted rate.				
Labor Hours Budget vs. Actual	Shows total budgeted hours for each project and compares them to the actual hours charged to each.				

RESOURCE IMPACTS

Staff expects minimal impacts to SAWPA or its member agencies related to this effort.

Staff Comments

For this month's report, the item(s) explained below are either "behind", a "concern", or have changed significantly from the prior month.

1) Total revenues are 31% below budget. Both the Proposition 1 and Proposition 84 projects have started out slowly this year. It is anticipated that all projects will be on track with the budget at the end of the fiscal year.

Staff Comments

For this month's report, the item(s) explained below are either "behind", a "concern", or have changed significantly from the prior month.

1) Both expenses and revenues are on track with the budget.

COMMISSION MEMORANDUM NO. 2021.28

DATE:	April 20, 2021
TO:	SAWPA Commission
SUBJECT:	Budget vs. Actual Variance Report FYE 2021 Second Quarter – December 31, 2020
PREPARED BY:	Karen Williams, DGM/CFO

RECOMMENDATION

It is recommended that the Commission receive and file the informational report on FYE 2021 Second Quarter Budget vs. Actual Variance Report.

DISCUSSION

Staff has developed a Budget vs. Actual Variance Report and presents this report on a quarterly basis. Attached is the FYE 2021 Budget vs. Actual Variance Report through December 31, 2020. The Agency's net revenue was \$614,382, which was \$1,488,407 more favorable than budgeted. Several significant items comprise the majority of this favorable variance:

<u>Operating Revenue</u> was \$352,520 less than budgeted. This unfavorable variance is due to lower BOD and TSS charges than budgeted.

<u>Operating Expense</u> was \$538,976 less than budgeted. This favorable variance is due to lower BOD and TSS charges and a slow start to receiving Proposition 1 and 84 project invoices.

<u>Non-Operating Revenue/Expense</u> was \$1,301,948 more than budgeted. This favorable variance is due to early completion on CIP projects and the receipt of OC San invoices from last fiscal year.

Favorable Revenue Variances

Listed below are explanations of favorable variances of \$500,000 or more for individual revenue categories:

<u>Use of Reserves</u> – The 242% variance of \$1,872,111 is due to early completion of CIP projects and having received invoices of \$1,358,656 from OC San for construction projects from last fiscal year. The funding source for these projects are Use of Reserves.

Unfavorable Revenue Variances

Listed below are explanations of unfavorable variances of \$500,000 or more for individual revenue categories:

<u>Grant Proceeds</u> – The 53% variance of \$827,193 is due to the delay of receiving invoices for Proposition 1 and 84 projects from the project proponents.

Favorable Expense Variances

Listed below are explanations of favorable variances of \$500,000 or more for individual expense categories:

<u>Consulting & Professional Services</u> – The 42% variance of \$745,143 is due to the delay of receiving invoices for Proposition 1 and 84 projects from the project proponents.

Unfavorable Expense Variances

Listed below are explanations of unfavorable variances of \$500,000 or more for individual expense categories:

<u>Construction</u> – The 310% variance of \$1,861,145 is due to the early completion of CIP Projects and having received invoices of \$1,358,656 from OC San for construction projects from last fiscal year.

RESOURCE IMPACTS

None.

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETING DATES
OWOW Planning	Integrated Regional Water Management Planning and Grant Application Support for the Santa Ana River Watershed	 Staff worked with the Roundtable of IRWM Regions Network Coordinator to facilitate quarterly meetings with Roundtable members that include DWR staff to discuss pertinent topics. The Roundtable is currently working on the IRWM Region Assessment and coordinating with Maven's Notebook (a California water news website) on a series of blogposts and webinars focused on educating water resource processionals on IRWM. The Assessment involves interviewing the 48 IRWM regions across the State to understand what could be improved to enhance IRWM planning/programs and what are their success stories. Staff continues to work with the Roundtable of Regions on providing outreach material about IRWM that may be helpful in possibly including IRWM funding in new legislative climate resiliency bond bills being considered for June 2022. 	 Finalize the Roundtable of Regions IRWM Regional Assessment in May 2021 Prepare support letters for IRWM funding in future legislative climate resiliency bond bills. 	May and July OWOW Steering Committee meetings (virtual mtgs)
Santa Ana River Watershed Feasibility Cloud Seeding Program	Investigation of the feasibility and early design of a weather augmentation program for the Santa Ana River Watershed	 The Santa Ana River Watershed Weather Augmentation Feasibly Study was completed in Oct. 2020 and a final report about the study was presented to the SAWPA Commission on Dec. 1, 2020. Multiple presentations about weather modification (cloud seeding) have been made by SAWPA staff to SAWPA member agencies and their subagencies over the past quarter. A recommendation to proceed with the SAR Watershed weather modification ground-based seeding location analysis, the program CEQA and the preparation of a regional grant application to the OWOW/DWR Prop 1 IRWM Round 2 Implementation grant program for a three-year pilot scale program was made to the SAWPA Commission on April 6th. The SAWPA Commission approved the staff recommendation with the added direction to seek additional funding partners for the program as well as continued outreach to interested parties about weather modification. The proposed program will also include independent review and verification of its efficacy as part of the three-year pilot program. 	 Informational presentations will be shared by SAWPA staff with interested agencies. An RFP will be prepared for conducting the CEQA for the three-year program in the next fiscal year. 	Periodic updates on progress will be provided to the SAWPA Commission

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETING DATES
Santa Ana River Watershed Sustainability Assessment	Conduct a Watershed Sustainability Assessment	 The latest Santa Ana River Watershed Sustainability Assessment was last completed in 2019. The next one is anticipated to be completed and update in approximately three years. An outreach article about the innovative approaches used to prepare this watershed sustainability assessment has been prepared and will be submitted to the ACWA Innovation webpage next quarter. 	None at this time.	None at this time.
Prop 1 IRWM Disadvantaged Community Involvement (DCI) Program Implementation	Needs assessment, education and outreach, and technical assistance for disadvantaged, economically distressed and under- represented communities in the watershed	 Staff continued efforts to oversee and implement the sixteen IRWM grant funded Technical Assistance projects. This included coordination with each of the project proponents to confirm that projects are proceeding on schedule under the Covid-19 restrictions. All projects except for the Idyllwild Water District, which has been delayed due to issues related to Covid-19, are anticipated to be completed on schedule. Trust the Tap media kits remain available on the SAWPA website for water retailers use. SAWPA, CSU WRPI and UCI Irvine staff continue to coordinate with Sacred Places Institute on the final write-up of the Tribal section of the Santa Ana Watershed Ethnographic Assessment. LGC submitted the final proceedings and executive summary from the virtual statewide Disadvantaged Community and Tribal Lessons Learned Summit. LGC conducted Santa Ana Watershed Ambassador Workshops on Jan. 19th, and Feb. 3rd and finalized online Water Ambassador program training materials to be hosted on the SAWPA DCI webpage. Bailey Lai (formally LGC CivicSpark fellow) has completed his support to SAWPA on the implementation of SAWPA's DCI program. SAWPA staff continued to maintain and make improvements to the DCI Program webpage on the SAWPA website. 	 SAWPA to continue to manage Technical Assistance (TA) funding projects through completion. Staff to incorporate revised Tribal Santa Ana Watershed Ethnographic Assessment. Continue to post Trust the Tap campaign materials on SAWPA website (indefinitely). SAWPA to prepare Final Grant Report (June 2021). 	Status report updates will be provided at the 5-27- 21 and 7-22- 21 OWOW Steering Committee meetings. (virtual mtgs)

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETING DATES
Santa Ana River Conservation and Conjunctive Use Program (SARCCUP) Implementation	Implementation of SARCCUP (which includes conjunctive use, fish habitat, invasive weed removal, and water use efficiency programs) through the PA 23 Committee.	 Staff worked with EMWD, SBVMWD and WMWD on their sub-grantee agreement amendments. The EMWD and WMWD sub-agreement amendments were adopted this quarter. SAWPA received three consultant proposals for the new SARCCUP Water Use Efficiency Budget Assistance. The selected consultant with new task order and agreement were approved by the PA 22 Committee at their February 9, 2019 PA 22 Committee meeting. SARCCUP Partners received approval by the Metropolitan Water District of Southern California (MWDSC) for the SARCCUP program in March. The action taken by the MWDSC Board authorizes the Board to enter into SARCCUP agreements with the three SAWPA member agencies (WMWD, IEUA, and EMWD) as well as MWDOC, and a separate agreement between MWDSC and SBVMWD. 	Staff recommendation of Woodard and Curran task order for FYE 2022 SARCCUP project management fees	Bi-weekly SARCCUP Planning Manager meetings. PA 23 Committee meeting on 06-1-21 (virtual mtg)
Prop 84 IRWM Round 1	Grant administration of Prop 84 IRWM Round 1	• Staff continues to work with the agencies implementing the 15 projects involved in the first round of Prop 84 IRWM program to undertake all labor associated with interaction with DWR staff; project invoices processing including review, verification and submittal to DWR; project reporting review, verification and submittal to DWR; all DWR agreements, SAWPA Sub-agreements and Amendments preparation, processing and execution; DWR payment processing; project implementation inspection and verification and review of all Labor compliance; review and verification of all certifications, permits, and CEQA; project deliverables review, verification and submittal to DWR; project monitoring plan; review and verification for audit review; grant administration budget preparation, monitoring, projections and assessment; SAWPA management review, oversight and direction regarding these defined tasks.	• All grant administration will continue until the final Round 1 project is implemented and continues with annual monitoring for 10 years after the completion of the projects.	Quarterly Report to SAWPA Commission
Prop 84 IRWM Round 2	Grant administration of Prop 84 IRWM Round 2	• Staff continues to work with the agencies involved in the 19 projects under the second round of Prop 84 IRWM program to undertake all labor associated with interaction with DWR staff; project invoices processing including review, verification and submittal to DWR; project reporting review, verification and submittal to DWR; all DWR agreements, SAWPA Sub-agreements and Amendments preparation, processing and execution;	• All grant administration will continue until the final Round 2 project is implemented and continues with annual monitoring for 10 years after the completion of the projects.	Quarterly Report to SAWPA Commission

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETING DATES
		DWR payment processing; project implementation inspection and verification; assembling, reviewing and submittal of Financial Statements; coordination and review of all Labor compliance; review and verification of all certifications, permits, and CEQA; project deliverables review, verification and submittal to DWR; project benefit assessment; review and verification of project monitoring plan; review and verification of project signage; review, verification and preparation of all documentation for audit review; grant administration budget preparation, monitoring, projections and assessment; SAWPA management review, oversight and direction regarding these defined tasks.		
Prop 84 IRWM 2015 Round	Grant administration of Prop 84 IRWM 2015 Round	• Staff prepared and reviewed the grant invoice and progress report for the fourth reporting period of 2020 that was due to DWR on March 31, 2021.	• Submit the 1st quarterly report/invoice of 2020 to DWR by June 30, 2021.	Bi-weekly SARCCUP Planning Manager meetings.
Prop 1 IRWM Round 1	Enhancements to Watershed-Wide Water Budget Decision Support Tool	 SAWPA released a request for proposals to acquire upper Santa Ana River Watershed aerial imagery in February and received six proposals. Staff is recommending the firm, Geophex Ltd., to capture the imagery in summer 2021 at the April 13, 2021 PA 22 Committee meeting for a cost of approximately \$210,000. Orange County aerial imagery data will be available in July 2021 and staff is working with project partner US Bureau of Reclamation on training their aerial imagery analysis model to quantify the location of irrigable/irrigated landscapes. The aerial imagery work reflects the first of three major tasks for the Enhancements to Watershed-Wide Water Budget Decision Support Tool. Follow up tasks to be conducted after the aerial imagery capture and processing task are Task 2 - Landscape Analysis, measure landscapes to provide water budgets to retail agencies to support the achievement of water efficiency targets prescribed by the State and Task 3 – Decision Support Tool, deploy tool to enable retail agencies to analyze customer water use data to assess customer efficiency, target water over use, and serve as a mechanism for customer outreach 	• Over the next quarter, the urban areas of the watershed will be flow for aerial imagery acquisition, analysis and quality confirmation.	PA 22 Meeting April 13, 2021

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
Middle Santa Ana River (MSAR) Pathogen TMDL Task Force	Implement TMDLs to address impairments to water quality relating to the fecal coliform objective established to protect the REC-1 use for waterbodies located within the Middle Santa Ana River Watershed.	 SAWPA continued Task Force Administration including management and review of consultant contracts, project invoices and annual Task Force budget. Task Force consultant, Tess Dunham continued her effort to orchestrate the TMDL Implementation strategy for the MSAR TMDL Task Force, with the support of Tim Moore/Risk Sciences and Richard Meyerhoff/GEI Consultants. The Task Force continued their effort to support the implementation of the Riverside / San Bernardino Counties CBRP in coordination with the MSAR TMDL Task Force. Task Force continued discussion of the next steps to be taken regarding the process to update the MSAR TMDLs. 	 Continue discussion of the next steps to be taken regarding the process to update the MSAR TMDLs. 2021-22 stakeholder invoices to be sent out in July 2021 	Task Force Meeting (virtual meeting) scheduled for 04-19-21
	TMDL Task 3 Watershed Monitoring Program	 MSAR TMDL Compliance monitoring is now conducted as a component of the Santa Ana River Bacteria monitoring program implemented through the Regional Water Quality Monitoring (RWQM) Task Force. The RWQM Task Force consultant, CDM Smith completed the 2020 annual SAR Regional Bacteria monitoring on behalf of the MSAR TMDL Task Force. 	 Draft 2020 Annual SAR Regional Bacteria Monitoring Report due April. 2021 warm season monitoring to begin in May. 	
	TMDL Task 4 Source Evaluation and Management	 MSAR TMDL Task Force meetings continued to be used as a forum for stakeholders to update Regional Board staff on their CBRP implementation activities. SAWPA continued to act as the contracting party for the benefit of Task Force agencies to implement specific studies and projects to support each County's Comprehensive Bacteria Reduction Plan implementation activities. All current source evaluation work relating to the bacteria indicator TMDLs is being conducted through the individual Counties MS4 program to implement their respective Comprehensive Bacteria Reduction Plans. 	 All current deliverables related to the implementation of the Counties Comprehensive Bacteria Reduction Plans are currently being addressed by individual agencies. Task Force to evaluate proposal and issue RFP for a special source evaluation study to support the MSAR TMDLs. 	

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
Lake Elsinore and Canyon Lake Nutrient TMDL Task Force	Implement TMDLs to address water quality issues relating to excess nutrients in Lake Elsinore and Canyon Lake.	 LESJWA continued Task Force administration including management and review of consultant contracts, project invoices and annual Task Force budget. Staff continued to coordinate issues relating to stakeholder load/cost allocations, in-lake modeling, and the design on in-lake treatment projects with various consultants. Stakeholders approved the FY 2021-22 Task Force budget at the February Task Force meeting. Task Force consultant, Tess Dunham continued her role of working with stakeholders on a long-term plan to revise and update the Lake Elsinore and Canyon Lake nutrient TMDLs with support from Tim Moore/Risk Sciences. Tess Dunham prepared revised draft nutrient TMDL offset language for review by stakeholders. Richard Meyerhoff/GEI Consultants and Steve Wolosoff/CDM Smith continued their efforts to support the Task Force in the process to update the LE&CL TMDLs. Regional Board continued their process to amend the Basin Plan to update the Lake Elsinore and Canyon Lake nutrient TMDLs. Task Force agreed to revise the funding obligation of WRCAC proportional their portion of irrigated agriculture in the San Jacinto Watershed. 	 Issue revised draft FY 2021- 22 Task Force budget in January. Consultant team led by Tess Dunham to submit the final updated 2020 TMDL Compliance Report included a comment matrix to Regional Board. Submit recommended nutrient offset language to Regional Board for consideration. Regional Board Public Workshop to adopt the Revised LE&CL TMDLs has been postponed until summer-fall 2021. 	Task Force Meeting (virtual meeting) is scheduled for 04-19-21
	TMDL Task 4 Monitoring Program	 Wood Environmental Inc. continues to implement the Phase 2 TMDL Compliance Monitoring Program. Regional Board announced the award of State funding to support the monitoring of hazardous algal blooms in Lake Elsinore. The Task Force will support this effort through the formation of a technical advisory committee. 	• Continue the FY 2020-21 TMDL Compliance water quality monitoring through June 2021.	
	TMDL Task 9 Lake Elsinore TMDL Compliance Implementation Activities	 Work relating to the implementation of Lake Elsinore In-Lake Sediment Nutrient Reduction Plan performed in conjunction with the RCFC&WCD MS4 Comprehensive Nutrient Reduction Plan continued. Dr's Horne and Anderson submitted the draft LEAMS effectiveness analysis to LEAMS Operators for review. 	• Continue review and discussion of the draft study by Horne and Anderson to evaluate available methods to improve N&P offsets in Lake Elsinore.	LEAMS Operators meeting (virtual meeting) 05-10-21

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
	TMDL Task 10 Canyon Lake TMDL Compliance Implementation Activities	 Work relating to the implementation of Canyon Lake In-Lake Sediment Treatment Evaluation performed in conjunction with the RCFC&WCD MS4 program Comprehensive Nutrient Reduction Plan continues. LESJWA staff continued as the lead implementing agency for the Canyon Lake Alum application work. Staff worked with the consultant team to evaluate the need of a Spring 2021 alum application. 	• Task Force will evaluate whether to conduct an alum application in late April 2021.	
	TMDL Task 11 Model Update	Consultant team continued to coordinate with Regional Board staff on additional Lake Elsinore and Canyon Lake modeling to be conducted by CDM Smith to address questions raised by Regional Board through the Peer Review process.	• Draft Modeling report scenarios to be submitted to stakeholders and Regional Board for review in April/May 2021.	
Basin Monitoring Program Task Force	Annual Monitoring Report	 A final copy of the 2019 Annual Report for the Santa Ana River Water Quality reflecting all comments received was finalized and sent to the Regional Board in late July 2020. As part of the upcoming year reevaluation of surface and groundwater monitoring, the approach for conducting the annual water quality report for the Santa Ana River will be reviewed as well. 	• Submit a draft 2020 Annual Report of Santa Ana River Water Quality began in July 2021.	
	Triennial Ambient Water Quality Update	 The Triennial Ambient Water Quality Update (AWQ) for the 1999-2018 was formally transmitted to the Regional Board on July 14, 2020 but accepted by the Regional Board by resolution on March 12, 2021. The results of the recent Triennial Ambient Water Quality Update aree reflected in the Basin Plan Amendment that the Task Force's consultants, Risk Sciences and KSC, prepared and will be submitting to the Regional Board in May 2021. As indicated in the final report and in response to Regional Board recommendations, a task force scoping committee has been formed to look at modifying and streamlining the future Triennial Ambient Water Policy Update. The Scoping Committee met on Jan. 13th and March 10th. A Consultant Scoping Workshop was held on Feb. 9th. Feedback was well received and is helping to guide the development of a Request for Proposals. 	• The Basin Monitoring Program Task Force will review the draft final RFP for updating the Triennial Ambient WQ program on April 12, 2021.	04-12-21 Task Force meeting (virtual mtg)

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
	Santa Ana River Wasteload Allocation Update	 All work on the Santa Ana River Wasteload Allocation (WLA) Update has been finalized and the final report was transmitted to the Regional Board on July 14, 2020. Work was also completed on the Substitute Environmental Document required for the Basin Plan Amendment (BPA) which incorporates the SAR WLA results. At the request of the Regional Board, the Task Force's consultant, Tess Dunham of KSC also prepared a draft staff report for the Regional Board and was shared with the BMP Task Force. Tess Dunham of KSC will provide an overview about the Basin Plan Amendment to the SAWPA Commission on May 4th. 	• The Regional Board staff plans on taking the Basin Plan Amendment for the SAR WLA work to the Regional Board at their Jun. 11, 2021 meeting.	04-12-21 Task Force meeting (virtual mtg)
	Drought Policy	 The Regional Board included the creation of a new drought policy as one of their last Triennial Basin Plan Priorities. Tim Moore of Risk Sciences worked with the BMP TF and the Southern California Salinity Coalition (SCSC) to develop an outline of the work necessary to justify a new Drought Policy. In 2018 Southern California Salinity Coalition working with Joe LeClaire completed a report about the TDS trends due to the drought experienced by several So Cal agencies. A draft outline for suggested revisions to waste discharge permits to accommodate changes under Drought scenarios was prepared by Risk Sciences and the Regional Board indicated their support for two of the four alternative approaches in June 2019. These changes were suggested as specific text in the upcoming TDS/Nitrate Basin Plan Amendment as the most expeditious and effective way to reflect a 10-year averaging period for permits rather than trying to establish a new policy by the Regional Board. Recommended permit changes to allow for Regional Board permit staff to remove TDS increment-of-use limits is also now included in the Basin Plan Amendment. 	• All work is reflected in the draft Basin Plan Amendment which is anticipated to be brought to the Regional Board for approval at their Jun.11 meeting.	04-12-21 Task Force meeting (virtual mtg)

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
	Recycled Water Policy Changes	 The possibility of changing the frequency of the Ambient Water Quality Update performed every three years to every five years was discussed in light of the recent amendment to the SWRCB Recycled Water Policy for Salt and Nutrient Management Plans. However, the Regional Board staff initially felt it was best to complete the next Triennial Ambient Water Quality Update in three years and not modify the timing it to reflect compliance with all Recycled Water Policy update requirements. However, Regional Board staff is now reviewing this and may reconsider whether the next update can be adequate to meet the SWRCB deadline of 2024. The BMP TF scoping committee has commenced work on investigating any new requirements that may be necessary. A scoping workshop with all consultants who have worked on past Triennial Ambient Water Quality Updates was held on Feb. 9th. Feedback from the scoping workshop is assisting Tess Dunham, SAWPA and BMP Task Force Scoping Committee with the preparation of a new scope of work. 	• The BMP TF scoping committee along with KSC have completed a first draft of the RFP and will be taking for final review by the BMP Task Force on 4-12-21. The goal will be for a consulting firm to be selected before the end of the fiscal year and to start work in July 2021.	04-12-21 Scoping Committee meeting (virtual mtg).

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
	Imported Water Rechargers Subcommittee	 The Imported Water Recharger Subcommittee last held meetings on Jan. 26th and March 3rd. The joint letter by the active recharging agencies and the Regional Board was discussed at the Jan. 26th meeting. The letter had requested that the Regional Board extended the deadline for the next groundwater modeling to start in the upper basin to Dec. 31, 2021. The time extension letter had been approved by the Regional Board to accommodate the development of a water quality component to the SBVMWD- led Upper SAR Water Integrated Tool being developed by Geoscience. The Subcommittee had discussed how the groundwater modeling requirements under the Cooperative Agreement could be merged with activities of the Basin Monitoring Program Task Force including the ambient water quality update conducted every three years and the Santa Ana River Wasteload Allocation. The use of an extensive groundwater and surface water model called the Upper SAR Watershed Integrated Model being developed by Geoscience indicate it believes it can incorporate water quality component to look at TDS and nitrate levels and provide results for the upper basin by Dec. 31, 2021. All Rechargers continue to attend the coordination meetings held by Geoscience for the water quality component development of the Upper SAR Watershed Integrated Model. They also are participating in the BMP TF Scoping Committee meetings. The Amendment No. 1 to the Cooperative Agreement was signed by the Regional Board on March 3, 2021 granting the revisions for recharge reporting from 3 year to every 5 years and extending the cycled of groundwater modeling from every 6 years to every 10 years. 	• Logistics of combining the work of the Imported Water Cooperative Agreement modeling with the Basin Monitoring Program Triennial Ambient WQ Update modifications will be explored.	The Imported Water Rechargers Subcommittee will meet in 06-21. (virtual mtg)

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
Emerging Constituents Program Task Force	Provide emerging constituents sampling report and watershed water quality outreach program	 The EC Program Task Force last met on Feb. 1st. A proposal was shared by SAWPA to conduct an Upper Watershed PFAS Impact Analysis. This study would seek to gather data that agencies and others might need to analyze the impacts and effects of the PFAS. A budget for this effort was proposed for inclusion in the FY 21-22 EC Program Task Force. Ultimately, the Task Force indicated they needed more detail and requested that it be sent out for discussion and consideration by email. If the task force supported the study, it would be included in the proposed FY 21-22 EC Program Task Force budget. Upon review, the EC Program Task Force elected not to proceed with the Upper Watershed PFAS Impact Analysis at this time and the study was not included in the FY 21-22 EC Program Task Force budget. Sufficient funding will be available if another sampling program is conducted in FY 21-22 for ECs and PFAS if desired by the Task Force. 	• Continue periodic coordination meetings and determine if regional action is desired and supported through the EC Program Task Force.	05-21 Task Force meeting (virtual mtg)
	Watershed water quality outreach program	 Work continues with JPW Consultants for the Emerging Constituents Program Task Force in providing social media support for the Your So Cal Tap Water blog. Social media tools provide important outreach supporting trust in drinking water quality by the public. This work is funded by a subset of the EC Program Task Force called the EC Public Outreach Workgroup. This work also includes month articles and quarterly videos. Monthly articles are prepared by JPW Communications and posted each month the Your So Cal Tap Water blog, Facebook and Twitter. The draft articles are reviewed by SAWPA staff and the Workgroup before posting. JPW Communications gave a report of their past six months of work at the Feb. 2021 EC Program Task Force. 	• Periodic coordination meetings with JPW Consultants and EC Program TF Public Outreach Workgroup will be held. All meetings are held virtually due to COVID-19.	EC Program TF Public Outreach Workgroup will meet again in 05- 2021 (virtual mtg)
Reclamation So Cal Studies	Support regional studies with Bureau of Reclamation	 SAWPA continued to coordinate with Bureau of Reclamation staff on the Water Management Options Pilot/Decision Support Tool regarding analyzing high resolution imagery across the watershed, Southern Orange County and the southern ends of the WMWD/EMWD services areas. Imagery for Orange County has been sent to USBR for analysis. 	• Analysis on the Prop 1 project aerial imagery by USBR will commence in the next quarter upon execution of a contract with the aerial imagery firm.	4-13-21 PA 22 Committee meeting (virtual mtg)

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
Santa Ana River Fish Conservation Task Force	Determine the reasons for the decline of the Santa Ana sucker fish (<i>Catostomus</i> <i>santaanae</i>) in the Santa Ana Watershed and implement projects that will benefit the species.	 Staff is working on updating the Riverwalk ranking methodology that is used to score each of the Riverwalk data points' habitat quality. Staff worked with SAWA to replant/manage 0.3 acres of vegetation as part of the mitigation for the habitat project constructed by the Team near the Van Buren Blvd. Bridge in October 2018. 	• Finish Riverwalk data ranking methodology in early 2021.	Team Meeting 2 nd quarter 2021
Regional Water Quality Monitoring Task Force	Implement a coordinated regional water quality monitoring program in the Santa Ana River watershed to meet the requirements of the amended Recreational Use Water Quality Standards and Implementation Plan requirements of the Santa Ana Basin Plan, and to assist Regional Board with future triennial reviews of the Basin Plan.	 SAWPA continued Task Force Administration including management and review of consultant contracts, project invoices and annual Task Force budget. Task Force consultant, CDM Smith, continued to support the Task Force in regulatory efforts related to bacteria. Task Force consultant, CDM Smith, completed the 2020 annual SAR Regional Bacteria monitoring on behalf of the Regional Water Quality Monitoring Task Force and MSAR TMDL Task Force. CDM Smith introduced for the consideration of the Task Force the concept of an on-line dashboard as a replacement to static electronic quarterly water quality reports. CDM Smith submitted for consideration by the Task Force modifications to the SAR Regional Bacteria monitoring plan and QAPP to address "Priority 3" waterbodies (these include waterbodies listed for bacteria impairment but do not currently have a TMDL). 	 Draft 2020 Annual SAR Regional Bacteria Monitoring Report due April. Submit recommendations for modifications to the SAR Regional Bacteria monitoring plan and QAPP to Regional Board. SAWPA to issue RFP to conduct water quality monitoring of homelessness encampments in late April 2021. 2021 warm season monitoring to begin in May. 2021-22 stakeholder invoices to be sent out in July 	Task Force Meeting (virtual meeting) 04-19-21.
Lake Elsinore and San Jacinto Watersheds Authority (LESJWA)	Support lake quality improvement projects at Lake Elsinore and Canyon Lake	 LESJWA Board last met virtually on Feb. 18th and at this meeting the LESJWA Board approved the LESJWA Audit report for Fiscal Year Ending June 30, 2020, approved a task order with CDM Smith, Inc. for an amount not-to-exceed \$37,160.00 to conduct additional in-lake modeling scenarios to support the TMDL adoption process, and received informational reports about the Santa Ana River Watershed Weather Modification Feasibility Study, the Lake Elsinore Advanced Pumped Storage (LEAPS) project, and the LE-CL TMDL Revision Update. SAWPA staff continues to support LESJWA as administrator for the LESJWA JPA, LE/CL TMDL Task Force with task force meetings and various committee meetings held virtually every 1-2 months. 	• LESJWA staff is evaluating the need for a possible alum application in Canyon Lake in Apr. 2021. Dependent on lake quality results.	04-15-21 LESJWA Board Meeting (virtual mtg)

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
	Provide education and outreach	 Liselle DeGrave of DeGrave Communications continues her support to LESJWA. Joint meetings with the consultant, LESJWA member agency PR staff and the SAWPA staff are held on a quarterly basis for coordination and are described as the LESJWA Education and Outreach Committee. The last meeting was held virtually on Jan. 11, 2021. The meeting included discussion of the Regional Board Lake Elsinore Harmful Algae Bloom monitoring program, the next Canyon Lake Alum Application and the AOCE Lake Elsinore Feasibility Study 	• Continue education and outreach support.	04-12-21 LESJWA Education & Outreach Meeting (virtual mgt)
So Cal Salinity Coalition (SCSC)	Support regional salt management and practices in Southern California	 The SCSC held its quarterly Board virtual meeting on Mar. 4, 2021. Kevin Hardy, SCSC Administrator, officiated the Zoom meeting. SCSC staff shared financial reports and agreed that they will inform all SCSC members that all future annual SCSC membership invoices will be sent out at the beginning of the fiscal year rather than at the beginning of the calendar year as has been the practice in the past. Mr. Hardy discussed the status of the SCSC Graduate Fellowship and discussed opening the SCSC fellowship eligibility to students working on Southern California salinity-centric issues that do not attend schools located in the Southern California region. The SCSC Board indicated a preference for applications from So Cal schools but to open it to applications outside of So Cal based on merit of application. Mr. Hardy discussed the SCSC Applied Research Program Solicitation with the SCSC Board and supported the recommendation from the subcommittee of SCSC to fund the OCWD project at \$100k and the LASAN application at \$24,000 based on the rating and ranking system for the proposals. The SCSC Board also discussed the 2021 Salinity Summit and agreed that a virtual event should still be organized. Mr. Hardy and his staff from NWRI shared their learning experiences from their recent NWRI virtual event. A 2-3-hour virtual Salinity Summit is envisioned perhaps in December 2021. Presentation topics were discussed. Informational reports were provided about CUWA Issue Briefing document, the SDWA Salinity Impact Study and the Colorado River Salinity Control Forum. 	• Planning will continue for the 2021 Salinity Summit now being considered for Dec. 2021.	5-6-21 SCSC Board Officers Meeting (virtual mtg) 6-3-21 SCSC Board Meeting (virtual mtg)

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
Santa Ana River Parkway and Open Space Plan Technical Advisory Committee	 Help identify priorities and values for the Santa Ana River Parkway and Open Space Plan Identify project selection criteria and projects for inclusion in the Parkway Plan Provide input and feedback on the Plan throughout its development 	 Staff coordinated with the Santa Ana River Conservancy staff on the quarterly Local Advisory Group meetings. Staff attended the recent meeting on March 18. 	• SAWPA to review Riverside County Parks' plans for trail construction near Prado Dam and the Green River Golf Course.	Santa Ana River Trail – Prado Area Coordination Meeting – 4-15-21 (virtual mtg) Upcoming Local Advisory Group meeting (still to be scheduled for ^{2nd} quarter 2021)
Water Energy Community Action Network (WECAN)	Support water and energy efficiency on disadvantaged communities in the watershed.	 On January 19, the SAWPA Commission approved a MOU with the City's utility – Riverside Public Utilities – that allows the utility to provide \$100,000 cost share to SAWPA for its turf removal effort included in the WECAN scope. On February 2, the SAWPA Commission approved the Transformative Climate Communities (TCC) subrecipient agreement between SAWPA and the City of Riverside for SAWPA to accept TCC grant funding in the amount of \$593,000 to expand the turf removal component of the WECAN program into Riverside 	• Develop a RFP to solicit bids from landscaping contractor to implement 100,000 square feet of turf removal and drought tolerant landscaping installation.	
Forest First	Support collaborative partnership among Forest Service and downstream stakeholders to develop methods to ensure the resiliency of the forests and headwaters within the Santa Ana River Watershed	 Staff facilitated several conversations between the San Bernardino National Forest (i.e., U.S. Forest Service staff), the National Forest Foundation, Inland Empire Resource Conservation District, and San Bernardino Valley Municipal Water District. The focus of the meetings was to coordinate the activities of the stakeholders and the U.S. Forest Services related to forest management, water supply and quality, and ecosystem health. 	 Utilize the results from the Dr. Underwood research to evaluate the economic benefits of water supply/quality of forest projects in the watershed. Overlay U.S. Forest Service sub-watershed prioritization mapping with water agency facilities to plan the implementation of forest and water-related multi-benefit projects. 	Periodic meetings in 2021.

PROJECT	DESCRIPTION	STATUS	FUTURE TASKS/DEADLINES	FUTURE MEETINGS
Arundo Removal	Remove non-native plant species, particularly Arundo donax, using SAWPA's Arundo Removal mitigation bank credit funding	 Staff coordinated with the Riverside County Regional Park and Open-Space District (County Parks) on exploring options to improve the Santa Ana River Mitigation Bank so that customers with various mitigation needs can receive bank credit. Staff continued to work with selected consultant Project Partners to assist with the Arundo Headwaters Project and received land ownership information for most of the approximately 300-acre project area from them. 	 Present a background of the Santa Ana River Mitigation Bank at the April 20 Commission meeting. Present options for Mitigation Bank improvements at a future Commission meeting. 	Bi-monthly Santa Ana River Watershed Weed Management Area mtg to update them on the upper watershed project as well as the outreach material. Attend an upcoming meeting with CDFW to further discuss the mitigation bank. 04-20-21 Commission Meeting

Santa Ana Watershed Project Authority | 11615 Sterling Avenue, Riverside, CA 92503 | www.sawpa.org

INSIDE THE April Report

- 1 Expanded Outreach Highlighting SAWPA Innovation
- 2 Reach 4B Upper -Pipeline Inspection
- 3 Reach 4A Upper -Pine Avenue Improvements
- SARW Water Efficiency Budget Assistance

Expanded Outreach Highlighting SAWPA Innovation

Recently the Association of California Water Agencies (ACWA) has invited agencies to submit articles that promote innovation. SAWPA has prepared two articles for submittal highlighting the innovative approaches used to prepare the Santa Ana River Watershed Sustainability Assessment as well as the Department of Water Resources Proposition 84 grant funded project, the Santa Ana River Conservation and Conjunctive Use Project (SARCCUP). This project, which will provide 137,000 AF of dry weather water storage for the watershed, enhanced environmental restoration and water use efficiency improvements.

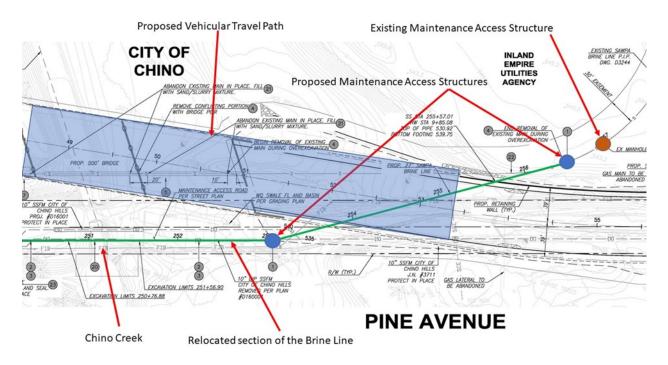

Reach 4B Upper - Pipeline Inspection

The Arlington Desalter was taken out of service for maintenance between March 15 and April 1. This allowed SAWPA Operations staff to conduct pipeline inspection of approximately 4 miles of pipe. Historically, this section of the Brine Line experienced significant scaling issues that required frequent cleaning and monitoring. After close coordination with WMWD it was determined that adding antiscalant to the brine discharge from the desalter would reduce further scaling. Adequate hydraulic capacity has been maintained since the antiscalant was added.

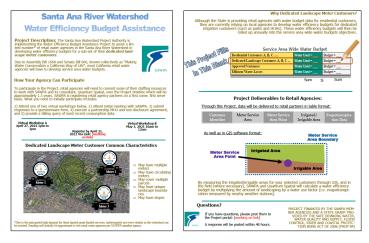

Reach 4A Upper - Pine Avenue Improvements

It has been reported that the City of Chino, City of Chino Hills and Caltrans are working on a joint project to create an off-ramp to California Highway 71 off Pine Avenue. The proposed bridge over Chino Creek will impact the existing alignment of the Brine Line and will require relocation. SAWPA staff has been in coordination with the City of Chino and Huitt-Zollars, the project designer, to look at alternatives for the realignment that do not interfere with vehicular traffic and allow ease of access to Brine Line structures. The alternative being considered will result in construction of approximately 680 feet of new 27-inch diameter pipe.

Santa Ana River Watershed Water Efficiency Budget Assistance

SAWPA is hosting virtual workshops April 27 and May 3 to recruit retail water agencies in the Santa Ana River Watershed to participate in the Water Efficiency Budget Assistance Project. The Project will be able to help up to 10 retail water agencies (2 per SAWPA member agency) to develop water efficiency budgets for their dedicated landscape meter customers. This assistance will help retail agencies comply with Assembly Bill 1668 and Senate Bill 606, known collectively as "Making Water Conservation a California Way of Life". Under those bills, most California retail water agencies will have to develop service area water efficiency budgets.

Santa Ana River Watershed Water Efficiency Budget Assistance

Project Description: The Santa Ana Watershed Project Authority is implementing the Water Efficiency Budget Assistance Project to assist a limited number* of retail water agencies in the Santa Ana River Watershed in developing water efficiency budgets for a sub-set of their **dedicated land**scape meter customers.

Due to Assembly Bill 1668 and Senate Bill 606, known collectively as "Making Water Conservation a California Way of Life", most California retail water agencies will have to develop service area water budgets.

How Your Agency Can Participate

Virtual Workshop A

April 27, 2021 1pm to

3pm

To participate in the Project, retail agencies will need to commit some of their staffing resources to work with SAWPA and its consultant, Quantum Spatial, over the Project timeline which will be approximately 1.5 years. SAWPA is registering retail agency partners on a first come, first serve basis. What you need to initially participate includes:

1) Attend one of two virtual workshops below, 2) attend initial meeting with SAWPA, 3) submit responses to a questionnaire form, 4) execute a partnership MOU and non-disclosure agreement, and 5) provide a billing query of most recent consumption data.

Virtual Workshop B May 3, 2021 10am to 12am

Dedicated Landscape Meter Customer Common Characteristics

Register by April 21, 2021 Via Link: (working on link)

- \Rightarrow May have multiple meters
- \Rightarrow May have circulating meters
- \Rightarrow May cover multiple parcels
- May have unique landscape boundaries
- \Rightarrow May have slopes

*Due to the anticipated high demand for these limited grant funded services, unfortunately not every retailer in the watershed can be assisted. Funding will initially be apportioned to two retail water agencies per SAWPA member agency.

Why Dedicated Landscape Meter Customers?

Although the State is providing retail agencies with water budget data for residential customers, they are currently relying on local agencies to develop water efficiency budgets for dedicated irrigation customers (such as parks and HOAs). These water efficiency budgets will then be rolled up annually into the service area wide water budgets objectives.

A FERINS	Service Area W	ide Water Budg	jet
The second second	Residential Customers A, B, C	Water Used =	Budget =
This Project Fills	Dedicated Landscape Customers A, B, C	Water Used =	Budget =
TIMUS APPR BUELING	Approved Variances	Water Used =	Budget =
This Pres Blank	Efficient Water Losses	Water Used =	Budget =
U.S.		Sum 🖻	≤ Sum

Project Deliverables to Retail Agencies:

Through this Project, data will be delivered to retail partners in table format:

Customer	Meter Service	Meter Service	Irrigated/	Evapotranspira-
Identifier	Area	Area Point	Irrigable Area	tion Data

As well as in GIS software format: Meter Service Area Point Irrigated Area Irrigable Area

By measuring the irrigated/irrigable areas for your selected customers through GIS, and in the field (where necessary), SAWPA and Quantum Spatial will calculate a water efficiency budget by multiplying the amount of landscaping by a water use factor (i.e. evapotranspiration measured by nearby weather stations).

Questions?

If you have questions, please post them to the Project portal: (working on link) PROJECT FINANCED BY THE SAWPA MEM-BER AGENCIES AND A STATE GRANT PRO-VIDED BY THE SAFE DRINKING WATER, WATER QUALITY AND SUPPLY, FLOOD CONTROL, RIVER AND COASTAL PROTEC-TION BOND ACT OF 2006 (PROP 84)

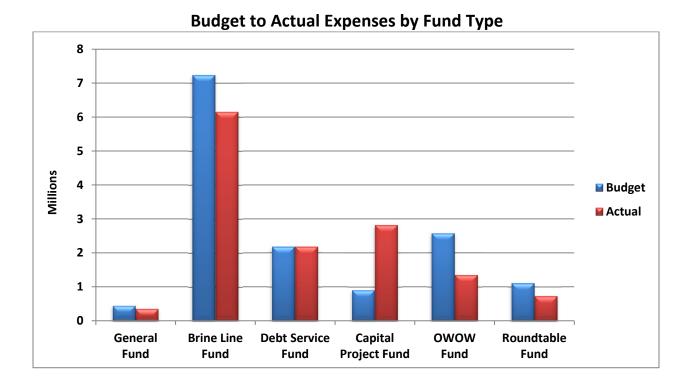

A response will be posted within 48 hours.

Santa Ana Watershed Project Authority Executive Financial Information Report January 2021

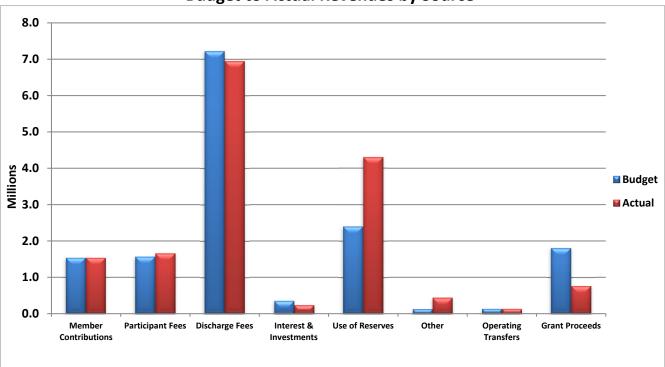

Staff comments provided on the last page are an integral part of this report.

Overview This report highlights the agency's key financial indicators for the Fiscal Year-to-Date (FYTD) January 2021 unless otherwise noted.

Budget to Actual Expenses by Fund Type				Favorable
	Annual Budget	FYTD Budget	FYTD Actual	Favorable (Unfavorable) Variance
General Fund	\$680,339	\$438,531	\$347,112	\$91,419
Brine Line Enterprise	12,401,418	7,234,160	6,155,405	1,078,755

Staff Comments

For this month's report, the item(s) explained below are either "behind", a "concern", or have changed significantly from the prior month.

Both revenues and expenses are on track with the budget. The Capital Projects Fund is \$1,901,600 over budget. The variance is due mainly to OC San having billed \$1,358,656 in construction costs for projects from the previous year and early completion of CIP projects.

April 9, 2021

То:	Santa Ana Watershed Project Authority
From:	Michael Boccadoro Beth Olhasso
RE:	March Report

Overview:

The March Miracle water managers were hoping for didn't materialize in any significant way. The few storms that rolled through helped stop the bleeding, but didn't bring the significant snow needed to salvage the water year for the state. With San Luis Reservoir, the main south-of-Delta storage facility for the State Water Project, at 61 percent of average for this time of the year and 55 percent capacity and Oroville at 53 percent of average and 40 percent capacity, there is cause for worry. Additional concern is warranted with the statewide snowpack at just 61 percent of April 1 average. Finally, all but the very northwest tip of the state is experiencing some level of drought conditions with over 30 percent of the state experiencing extreme or exceptional drought.

As widely reported, the State Water Project allocation was lowered from ten to five percent. Additionally, the Department of Water Resources and the State Water Resources Control Board have put water users on notice that it is going to be a dry year and measures will likely be taken to cut back on water usage.

The State Water Resources Control Board is poised to issue the world's first guidelines for microplastics in drinking water despite lacking data on how prevalent they are in the state, no scientific agreement on how to test for them and little research on associated health risks.

The California Department of Toxic Substances Control (DTSC) outlined the rationale for regulating PFAS as an entire class, rather than individually, under the state's Safer Consumer Products (SCP) green chemistry program on the basis that it is ineffective and impractical to regulate the complex class of chemicals through a piecemeal approach. The wastewater community has been in favor of the class approach in hopes of keeping PFAS out of flows.

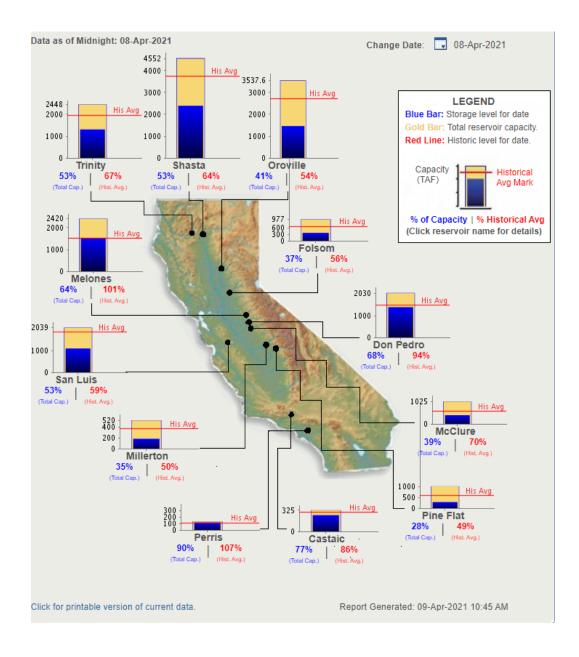

\$650 million was generated for the Greenhouse Gas Reduction Fund (GGRF) in the latest Cap and Trade allowance auction. The funds will be added to the GGRF pot that the legislature gets to allocate with the budget. Legislators decided to not make any allocation for the 2020/2021 Fiscal Year, so there is over \$2 billion to be allocated in the 2021/22 fiscal year. Some of that has been allocated trough "early action" spending to stimulate the economy.

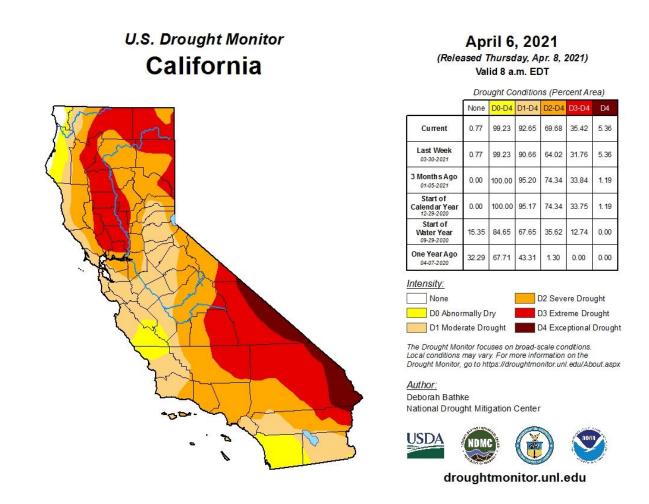

The Legislature has been busy moving bills through their first policy committees ahead of the April 30 policy committee deadline. The social distancing rules in the Capitol continue to restrict the legislature's ability to act on a significant number of bills. As the end of April deadline nears it will become clear if the physical restrictions will cause bills to drop off agendas.

Santa Ana Watershed Project Authority Status Report – March 2021

Water Supply Conditions

The March Miracle water managers were hoping for didn't materialize in any significant way. The few storms that rolled through help stop the bleeding, but didn't bring the significant snow needed to salvage the water year for the state. With San Luis Reservoir, the main south-of-Delta storage facility for the State Water Project, at 59 percent of average for this time of the year and 53 percent capacity and Oroville at 54 percent of average and 41 percent capacity, there is cause for worry. Additional concern is warranted with the statewide snowpack at just 61 percent of April 1 average. Finally, all but the very northwest tip of the state is experiencing some sort of drought conditions with over 35 percent of the state experiencing extreme or exceptional drought.

SWP Allocation Lowered

As widely reported, the Department of Water Resources (DWR) recently lowered its initial State Water Project (SWP) allocation for the 2021 water year from 10% to 5% of requested supplies. The 5% allocation amounts to 210,266 acre-feet of water, distributed among the 29 long-term SWP contractors who serve more than 27 million Californians and 750,000 acres of farmland.

DWR's announcement followed the State Water Resources Control Board's sending a letter to 40,000 water right holders and agents highlighting the dry conditions affecting most California watersheds. The letter encourages water right holders to "start planning now for potential water supply shortages later this year," but does not create new requirements or impair water rights.

The current dry conditions of 2020 and 2021 are being compared to the drought years of 2014 and 2015.

As a result of the persistent drought conditions, and in accordance with its permit for the long-term operation of the State Water Project, DWR has submitted a revised Drought Contingency Plan to the California Department of Fish and Wildlife. The plan provides updated hydrologic conditions and outlines areas of concern for the joint operations of the State Water Project and the Central Valley Project, water quality, and environmental impacts.

DWR does not anticipate the need to pursue a Temporary Urgency Change Petition (TUCP) to allow for temporary changes to the water quality and outflow requirements for the Sacramento-San Joaquin Delta.

"We are now facing the reality that it will be a second dry year for California and that is having a significant impact on our water supply," stated DWR Director Karla Nemeth in a news release. "The Department of Water Resources is working with our federal and state partners to plan for the impacts of limited water supplies this summer for agriculture as well as urban and rural water users. We encourage everyone to look for ways to use water efficiently in their everyday lives."

Microplastics

The State Water Resources Control Board is poised to issue the world's first guidelines for microplastics in drinking water despite lacking data on how prevalent they are in the state, no scientific agreement on how to test for them and little research on associated health risks.

Under a 2018 state law, California must require four years of testing for microplastics in drinking water, and the state must consider guidelines to help water providers and consumers determine what levels may be safe to drink. As a result, the SWRCB is blazing a trail to issue a preliminary health-based threshold and testing methods by July 1.

Research into the consequences of ingesting tiny plastic fragments is still in its infancy and no one knows how widespread microplastics in California's drinking water really are. There isn't even a standardized method to test for them. And no one knows what level may be "safe" to consume, since human health effects are largely unknown.

The World Health Organization concluded in 2019 that there was too little evidence to understand the toxicity of microplastics, and "no reliable information suggests it is a concern through drinking-water exposure."

The SWRCB approach is opposite to how drinking water is usually regulated. In most cases, state or federal water regulators know how much of a contaminant is in the water, and research has already linked specific levels to health effects in humans.

Even as the state works to develop drinking water limits on microplastics, state officials know nothing about how prevalent they are in California's water supply because testing has not yet started.

The state has assembled an international assortment of laboratories working to streamline these techniques and figure out which are the most cost-effective for testing drinking water, sediment, ocean water and fish tissue. They expect to reveal by July what tests water providers must use.

The Southern California Coastal Water Research Project is leading the effort, sending jars of water spiked with microplastics and other materials to more than two dozen labs to see if they can distinguish microplastics from other contaminants and accurately measure particles.

Some experts question whether focusing on drinking water is enough. Bottled water, for instance, may be a bigger source of microplastics than tap water.

Treatment plants tend to catch larger plastic particles. But sewage treatment plants can still release billions of tiny particles every year into waterways. They may also make their way back into the environment through sewage sludge applied to crops.

We will continue to update the SAWPA Commission and staff as the process at the SWRCB develops.

PFAS Classification Debate Continues

The California Department of Toxic Substances Control (DTSC) outlines the rationale for regulating PFAS as a class under the state's Safer Consumer Products (SCP) green chemistry program on the basis that it is ineffective and impractical to regulate the complex class of chemicals through a piecemeal approach.

This is good news for the wastewater community which is doing everything possible to keep PFAS out of the waste stream and limit the amount of treatment required. Regulating by class could allow the state to quickly block most uses of the substances in consumer products.

The wastewater community and industry groups are clashing at DTSC over the issue. Wastewater and public health advocates are pushing for the entire class of thousands of PFAS chemicals in a potential listing, while groups representing chemical, packaging and other industries say the department should include 15-17 PFAS that are intentionally added to specific paper products.

DTSC is still finalizing the "product-chemical profile" and plans to initiate a rulemaking for listing PFAS as a Priority Product in 2021, with the regulations taking effect in the second half of 2022.

Latest Cap & Trade Auction Nets State \$650 Million for GGRF

The latest greenhouse gas allowance auction sold all of the current and future credits offered at 9 cents above the floor price for current allowances and 30 cents above the floor price for 2024 vintage allowances.

After a few shaky auctions during peak pandemic times, this is the second quarter in a row where all allowances were sold. As a reminder, the November 2020 auction netted the state about \$500 million.

The \$650 million will be added to the Greenhouse Gas Reduction Fund pot that the legislature allocates with the budget. Legislators decided to not make any allocation for the 2020/2021 Fiscal Year, so there is over \$2 billion to be allocated in the 2021/22 fiscal year. Some of those funds have been allocated trough "early action" spending to stimulate the economy.

Legislative Update

The Legislature has been busy moving bills through their first policy committees ahead of the April 30 policy committee deadline. The social distancing rules in the Capitol continue to restrict the legislature's ability to act on a significant number of bills. As the end of April deadline nears it will become clear if the physical restrictions will cause bills to drop off agendas.

Bill Updates

- AB 818 (Bloom)- Solid Waste: premoistened nonwoven disposable wipes: Co-Sponsored by CASA and disposable wipes industry. Would require specific "Do Not Flush" labeling on specific disposable wipes. The bill has no known opposition and has passed out of its first policy committee on a 9-0 vote. It was heard in the Assembly Judiciary Committee on 4/13 where it is also expected to pass.
- SB 230 (Portantino)- State Water Resources Control Board: Constituents of Emerging Concern (CECs): This bill is a reintroduction of a bill sponsored by MWD and California Municipal

Utilities Association (CMUA) that would require the SWRCB to convene a Science Advisory Panel to review and provide recommendations to the board on further action to regulate CECs in the state. The goal is to establish a process by which the board decides to regulate CECs rather than the unpredictable process currently used. The bill passed out of its first committee, but was tagged with significant fiscal costs in Appropriations. MWD, CMUA and the author decided to make the bill a two-year bill and it will not move forward in 2021.

- SB 273 (Hertzberg) Water Quality: municipal wastewater agencies: This legislation, sponsored by CASA, would authorize a wastewater agency to capture and treat stormwater utilizing ratepayer funds. The bill got out of it's first committee, Governance and Finance, on the consent calendar and will be heard in Environmental Quality Committee on April 12, where it is expected to pass.
- Climate Bonds: Senate leadership has indicated they might want to put a climate bond on the June 2022 ballot (even though both bonds currently have November 2022 listed). If they decide to pursue the June ballot, the bond will need to be passed by the legislature by late January 2022. This timeline has intensified work on the bonds this year.
 - SB 45 (Portantino): Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Act of 2022: This is a reintroduction of Senator Allen's SB 45 from 2020. It is a \$5.5 Billion bond. The bill has been heard in the Natural Resources and Water Committee, with very little discussion by members and virtually no opportunity to testify by the public. The bill will next be heard in the Governance and Finance Committee.
 - AB 1500 (E. Garcia) Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, and Workforce Development Bond Act of 2022. This legislation is similar to Asm. Garcia's bond from 2020. It is a \$6.7 billion bond. AB 1500 was heard for the first time in the Water, Parks and Wildlife Committee on April 8 and passed easily without a lot of discussion.
- AB 377 (R. Rivas): Water quality: impaired waters. This legislation would require all surface waters to be fishable, swimmable and drinkable by 2050. The bill attempts to do this by taking away regional board discretion to issue waste discharge and MS4 permits in accordance with a larger basin plan in favor of a one size fits all approach to managing water quality. The legislation has been widely opposed. Supporters, the author and the Environmental Safety and Toxic Materials Committee have been trying to find a path forward for the bill, but so far, the suggestions from the sponsor do not address the concerns of the opponents.
- AB 1434 (Friedman) Urban water use objectives: indoor residential water use: This legislation would set the standard for indoor water use at 48 gallons per capita daily (GPCD) beginning in 2023, 44 GPCD in 2025 and 40 GPCD in 2030. A strong coalition including ACWA, CASA, WateReuse, So Cal Water Coalition and the CA Water Association have been meeting with members of the Water, Parks and Wildlife Committee to express significant concerns with the bill. The bill will be heard in Committee on 4/22.
- SB 372 (Leyva) medium and heavy-duty fleet purchasing assistance program: zero emission vehicles. The bill, while still a work in progress, seeks to make financing tools available to help transition medium and heavy-duty truck fleets to zero emission vehicles. The bill currently fails

to include off-road or construction equipment as eligible under the program, but the author and sponsor have been open to making some changes to include construction equipment.

Budget Update:

As reported in previous reports, the California Municipal Utilities Agency (CMUA), the California Special Districts Association (CSDA), the California Association of Sanitation Agencies (CASA) and the Association of California Water Agencies (ACWA) launched an effort to secure \$1 billion in funding to help water, wastewater and public electric customers with their unpaid bills. They hope to secure some of the "extra revenue" the state has in the coffers for the 2021-2022 fiscal year. They have been making headway with some members of the budget committee. It is still unclear if they will be successful in this endeavor.

Senate Drought Funding Plan:

Recently, Senate President Pro Tem Toni Atkins released an "Early Action Budget Plan for Drought, Safe Drinking Water, and Water Supply Reliability." The \$2 billion funding proposal comes from federal "American Rescue Plan" funds, one time General Fund allocations and acceleration of Prop 1 and Prop 68 funds. The funding plan includes: establishing the CA Emergency Drought Water Efficiency Fund for water agencies to make direct grants to homeowners, small businesses, and local agencies to replace high water consumption landscapes and water efficiency plumbing fixtures. Additionally, the proposal seeks to accelerate appropriation of existing water bond priorities in Prop 1 and Prop 68 including water management projects, water recycling and drinking water capital projects. Notably, there isn't really any significant funding left in Props 1 or 68 that could by used by SAWPA and its member agencies.

Because this is an "early action" budget measure, the Pro Tem will attempt to move this package very quickly, likely in the coming weeks. The Assembly has yet to comment formally on this proposal.
