

LE/CL TMDL Task Force Meeting

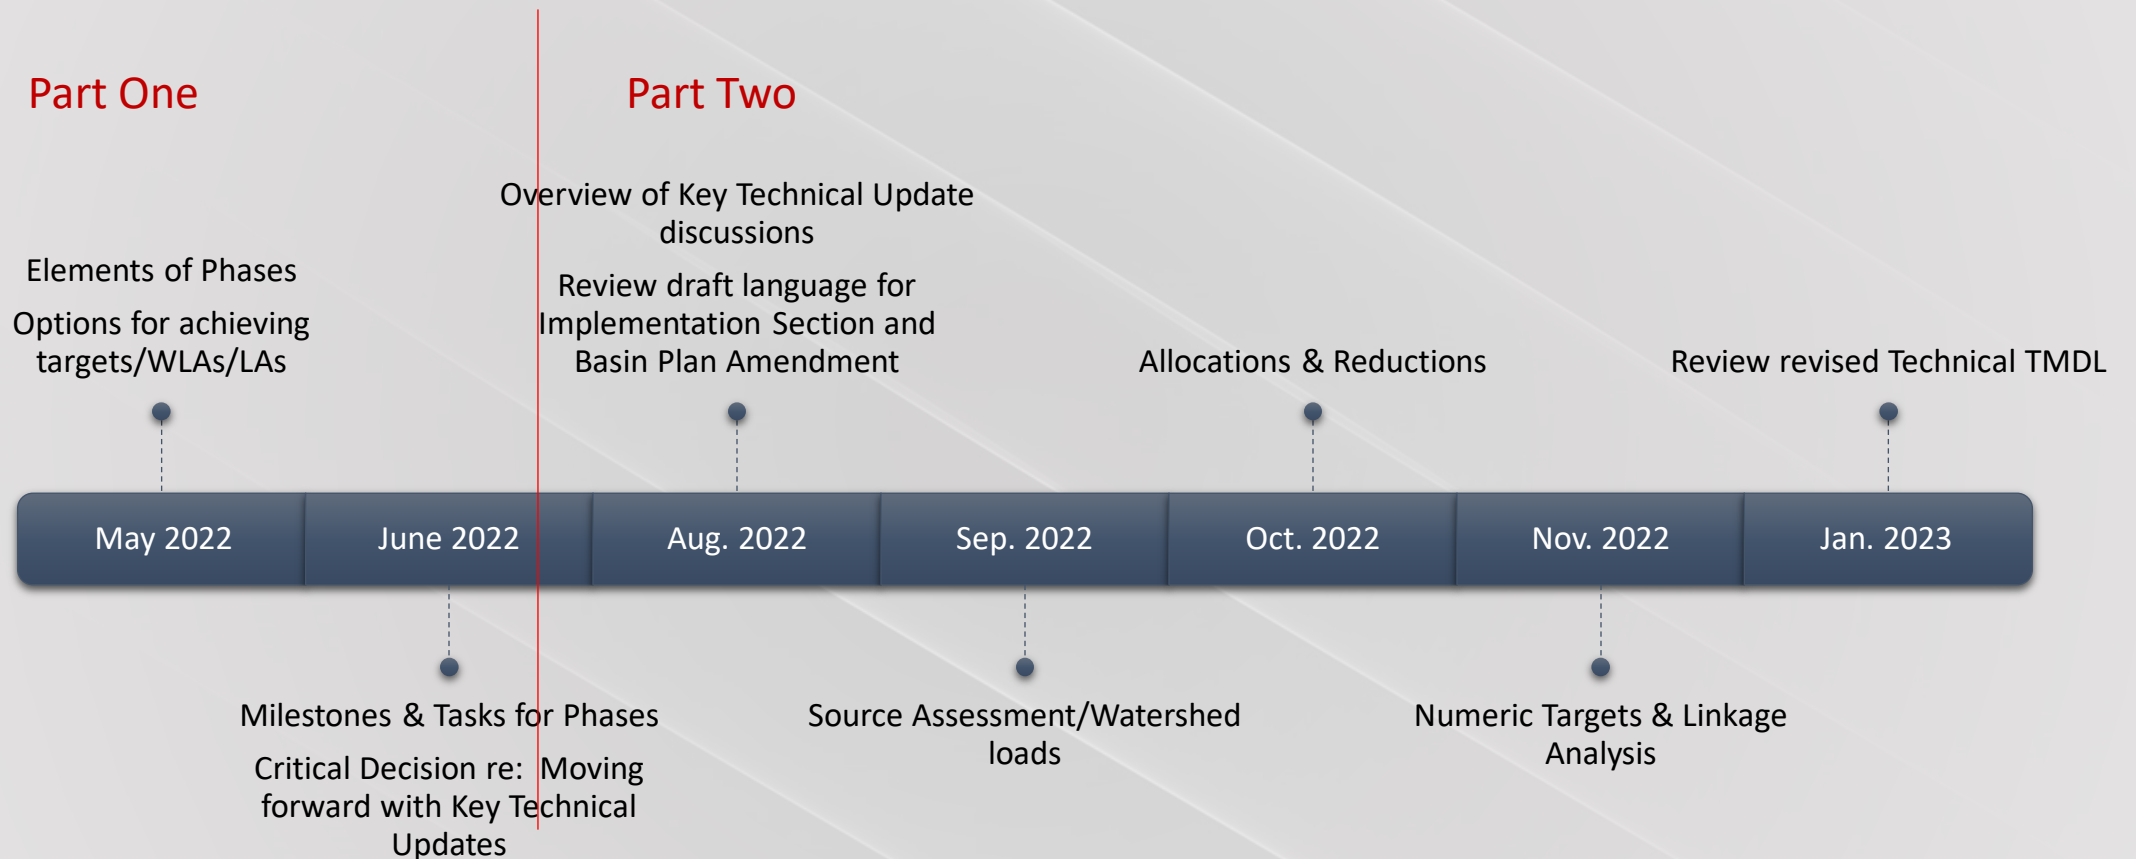

April 20, 2022

Draft Timeline for Moving Forward

Part One

Part Two

Part One Discussions - Implementation Planning Areas

Phasing & Related Components

- Elements of Two Phases
- Review/Reopener language
- Compliance deadlines for achieving interim and final targets, waste load and load allocations

Demonstrations for Achieving interim and final targets, waste load and load allocations

- Multiple Pathways
- Offsets

Milestones & Tasks for Phases

- Special Studies
- Management Plans

Elements of Phasing

- Phases for achieving Interim and Final Targets, WLAs & LAs
 - Phase 1 – Achieving interim targets/WLAs/LAs based on median Cranston Guard Data
 - Phase 2 – Achieving final targets/WLAs/LAs based on 25th percentile Cranston Guard Data
- Review/reopener language at the end of Phase 1 to evaluate efficacy of final targets
- Time allowed for each phase (i.e., compliance deadlines for achieving interim and final targets/WLAs/LAs)

Options for achieving and demonstrating achievement of targets and/or WLAs & LAs

INDIVIDUALLY OR COLLECTIVELY (I.E., GROUPS OF JURISDICTIONS)

IN-LAKE NUTRIENT REDUCTIONS TO OFFSET LOADS FROM EXTERNAL SOURCES

CUMULATIVE DISTRIBUTION FUNCTIONS FOR NUMERIC TARGETS

ANALYTICAL SAMPLING AND/OR SATELLITE IMAGERY

Milestones & TMDL Implementation Tasks

- Review tasks in 2018 Technical TMDL Report
- Special Studies:
 - Evaluate appropriate and applicable reference conditions for this watershed
 - Explore potential for development of site-specific objectives or variances
 - Alternative methods for demonstrating attainment of interim and/or final targets or WLAs/LAs.
