

# 2022 Groundwater Monitoring Program

November 28, 2022

# Agenda

- Comments Received
- Open Discussion
- Next Steps

# Comments Received

## Written Comments

- OCWD
- IEUA
- WMWD
- City of Riverside
- EVMWD
- SAWPA
- Tess Dunham

## Verbal discussions

- Yucaipa Valley WD
- City of Corona

# Comments Received

- Main focus was on Data Gaps analysis
- Clarifications on AWQ Pilot Study – which GMZs for performing simplified and standard approaches
  - 4 GMZs pilot simplified approach
    - Bunker Hill-B, Perris-South, Riverside-A, Temescal
  - 7 GMZs compute with standard approach, with some modifications
    - Maximum Benefit GMZs (Beaumont, Yucaipa, San Timoteo, Chino North, Cucamonga, San Jacinto Upper Pressure, Elsinore)
- Add additional details on some of the Task Force feedback (Integrated Model, in particular)
- Redlines to refine regulatory language and interpretations

# Comments Received

- Data Gaps analysis
  - Need more time to resolve responsible agencies
  - Request to separate out into its own document and further refine process – can it be part of work product due by April 2024?
  - Is two years enough to time to complete the steps to determine if well construction will be needed or not?
  - More explicitly tie to Recycled Water Policy requirements

# Next Steps

- Receive Regional Board Comments on 2021 Ambient Water Quality Study
- Receive confirmation from Regional Board that we've met December 1 deadline
- Start 2021 AWQ Pilot Study – December 2022
- Collaborate with Regional Board staff to define phased approach to finalizing the Workplan documents
  - Finalize document(s) with Phased Approach
    - December/January discussion with Regional Board on phased approach to complete document
    - Refine and release updated draft(s) for Task Force review before submittal to Regional Board
- Resume discussion of refinements to data gaps analysis in February or March 2023 and scope out steps to complete (pending outcomes of phased discussion with RB staff)

# Questions/Discussion

# THANK YOU
