LESJWA staff

2022 Lake Elsinore Offset Report prepared by Dr. Horne to quantify the available TP and TN offset credits available from the operations of LEAMS revealed that there were insufficient total nitrogen credits available to sell to stakeholders for 2022.

To address this shortfall of available total nitrogen credits, LESJWA staff will rework the LEAMS allocations to Task Force members purchasing LEAMS nutrient offset credits be based solely on the need for total phosphorus offset credits. In 2020, the Task Force directed LESJWA staff to invoice stakeholders for only 2020 TP offset credits and any remaining funds would be held and applied to their 2021 LEAMS budget allocation.

Recommendation: Direct LESJWA staff to invoice stakeholders for only 2022 TP offset credits and any remaining funds would be held and applied to their 2023 LEAMS budget allocation.
